DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 690

RECEIVED
APR 14 2023
DEPARTMENT OF
WATER RESOURCES

This is to certify that:

KIRK M JOLLEY
794 E 425 N
FIRTH, ID 83236-1227

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
34-14047	4/29/1955	GROUND WATER	0.38	66.5	19.0	0.020	3.5
34-13873	9/30/1882	ALDER CREEK, Tributary of BIG LOST RIVER	0.41	49.0	14.0	0.029	3.5
Combined Rental Totals			**0.48**	**66.5**	**19.0**	**0.025**	**3.5**

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2026. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2023, whichever occurs last.

Annual Rental Fee:

2023 - 2026: $1,529.50 annually

The full fee for the rental of the above-described right(s) is $1,529.50 per year for years 2023 - 2026. The rental fee includes an administrative fee of $152.95 per year for years 2023 - 2026.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate/Acre (CFS/AC)	Volume/Acre (AF/AC)
IRRIGATION	0.38	66.5	19.0	0.020	3.5
Combined Total	0.38	66.5	19.0	0.020	3.5

**** The authorized water usage reflects a reduction from the water right elements rented, to account for conveyance at original point of diversion and source.***

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 690

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

Signature of Renter _____ Date 04/10/2023

Printed Name Kirk m Talley Title Owner

*Title required if signing on behalf of a company or organization or with power of attorney

Having determined that this agreement satisfied the provisions of Idaho Code § 42-1763 and IDAPA 37.02.03.030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and condition herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board.

By _____ Date 4/17/23
BRIAN PATTON, Acting Administrator
Idaho Water Resource Board

Rental approved by IDWR _____ Date 4/17/23

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. The right holder shall make full beneficial use of all surface water rights available to the right holder for irrigation of the lands authorized to be irrigated under Right No. 34-13873. The right holder shall limit the diversion of ground water under Right No. 34-14047 to those times when the surface water supply is not available or the surface water supply is not reasonably sufficient to irrigate the place of use authorized under this right.

WATER SUPPLY BANK RENTAL AGREEMENT No. 690

10. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 34.

11. After specific notification by the Department, the right holder shall record the quantity of water diverted or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.

12. This rental agreement does not authorize the construction of a well.

13. Diversion of surface water under this rental agreement through the Burnett Ditch is limited to those times when the water is available for diversion under right 34-13873 at the original point of diversion, located in the NWNESE, of Section 14, Township 06N, Range 25E in Custer County.

14. Right No. 34-13873 is a combination of old right nos. 34-149, 34-362, 34-365(part) and 34-669.

15. The period of use for irrigation described under Right No. 34-13873 may be extended in seasons of unusual characteristics to a beginning date of 04-20 and an ending date of 10-31 at the discretion of the Director of the Idaho Department of Water Resources.

16. Rights 34-14047 and 34-13873 when combined shall not exceed a total diversion rate of 0.48 cfs and the irrigation of 19 acres.

17. Right No. 34-14047 when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.

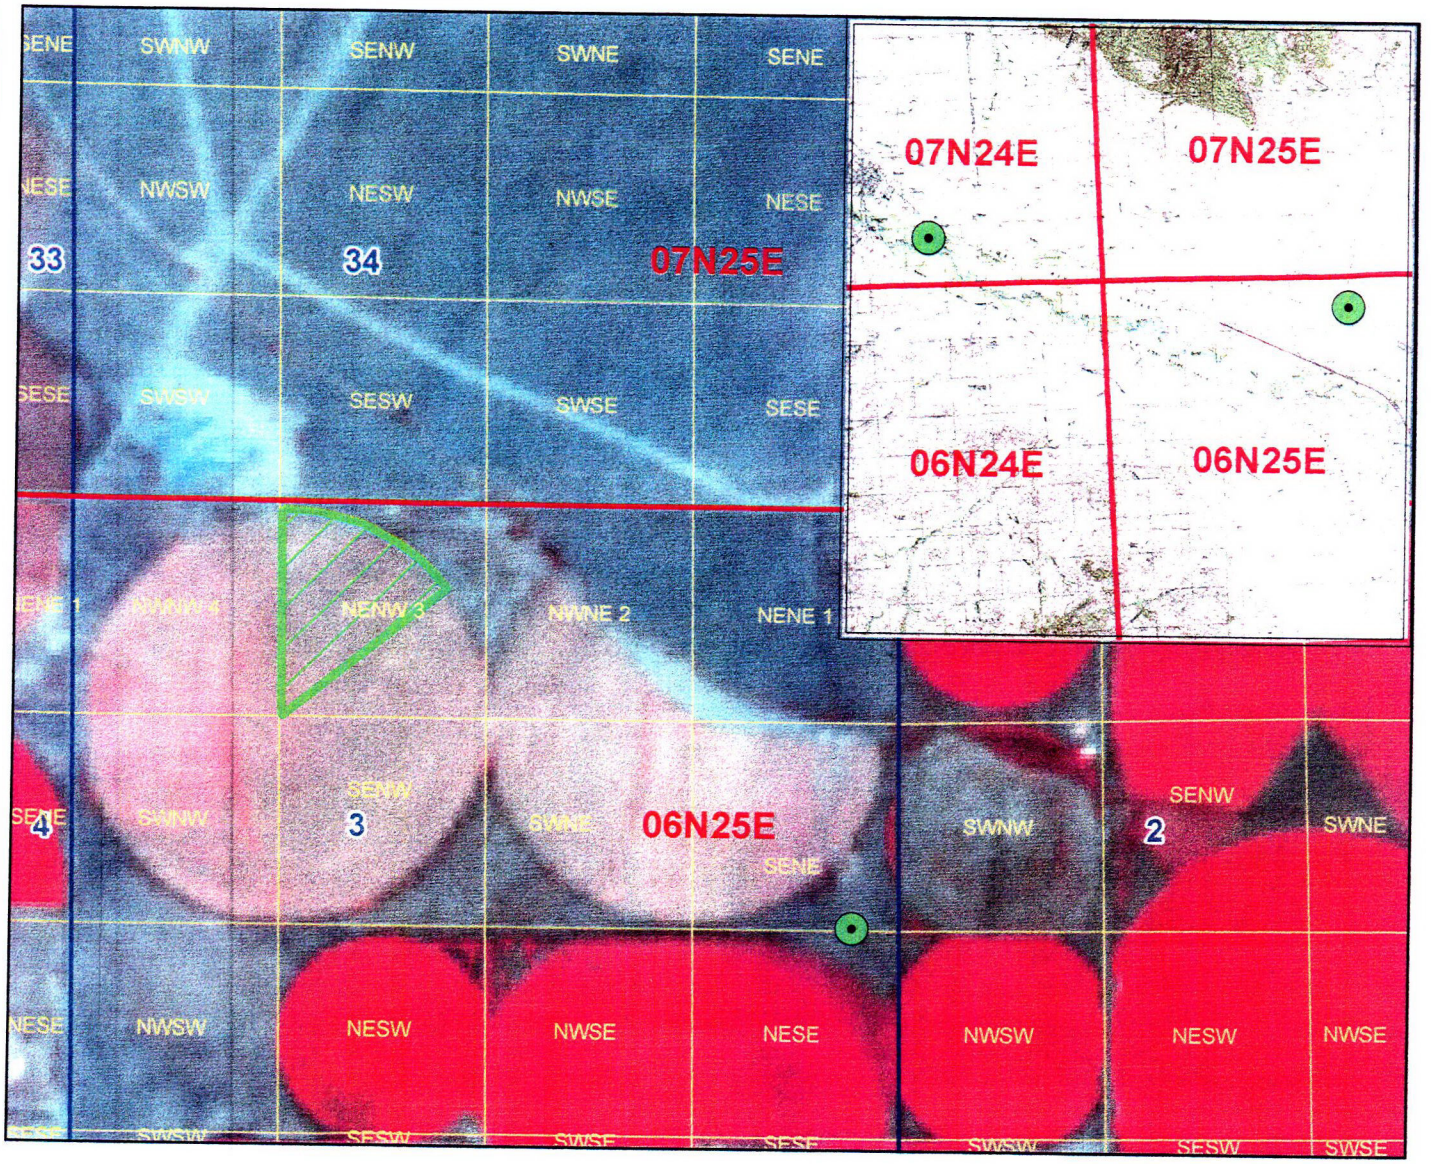

18. Rental of rights 34-13873 and 34-14047 when combined with rights 34-778, 34-10190, and 34-14856 shall not exceed the irrigation of 346 acres.

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: Kirk Jolley

Is this application being submitted with a lease application as a lease/rental package? Yes ☐ No ☑
If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

MINIMUM REQUIREMENT CHECKLIST

Check All Items as Either Attached (Yes) or Not Applicable (N/A)

Attachment	N/A	Yes	
		☑	Completed *Application to Rent Water from the Board's Water Supply Bank*
		☑	Confirmation that this form has been printed single sided, per requirement of the Water Supply Bank
2		☑	A map showing the proposed point(s) of diversion, place(s) of use, and water diversion and distribution systems proposed to be used with your rental request
3A	☐	☑	Detailed information on a proposed use of rental water
3F	☐	☐	Authorization from the owner/operator of the rental point(s) of diversion
3H	☐	☐	Water modeling to account for the impacts of the rental request
3J	☐	☐	Documents justifying a rate of flow greater than 0.02 cfs/acre
3K	☐	☐	Authorization from the owner/operator of the property at the proposed rental place(s) of use
4B	☐	☐	Explanation of how the rental water will sufficiently accomplish your rental purposes
4C	☐	☐	Explanation of consumptive use amounts for water rights experiencing a change in nature of use

Department Use Only – Proposed Water Right(s)

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Kirk Jolley

Mailing Address 794 E 425 N (Street) Firth (City) Idaho (State) 83236 (Zip Code)

Email Address kirkjolley@mac.com Phone Number 208-390-5052

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☐ No ☑
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative _____ Professional Title _____

Organization _____ Relationship to Applicant _____

Mailing Address _____

Email Address _____ Phone Number _____

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

The water will be used for irrigation of crops

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
2.0 CFS	435.0 AF	1.0 CFS	217.0 AF	100 AC

* ***Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.***

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
05/15/2022	06/01/2022	☑ 1	☑ 2	☐ 3	☐ 4	☐ 5	☑ Process application as soon as possible	☐ Return application to applicant

* ***The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.***

** ***Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.***

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Well and pump to pivots on our property.

E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
Pump	Well	34-14856

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☑
If yes, include documented consent as **Attachment 3F**.

G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☑
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

H. Has water modeling been provided with your rental request? Yes ☐ N/A ☑
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

☑ Irrigation 100 (number of acres) Duration: Subject to IDWR standard seasons of use

☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)

☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☑
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

K. Do you own the land at the proposed rental place of use (POU)? Yes ☑ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

34-10190. 34-14856. 34-778.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☐ No ☑

If yes, specify below the elements of the water rights you are requesting to rent. **If no,** continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request**. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
						2.0	435.0	100
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	2.0	435.0	100
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☑ No ☐
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental?
If yes, describe: Yes ☐ No ☑

C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☑
If yes, describe the date and location of the NOV.

D. Additional Information
We can use any amount up to the 2.0 cfs

DECLARATION

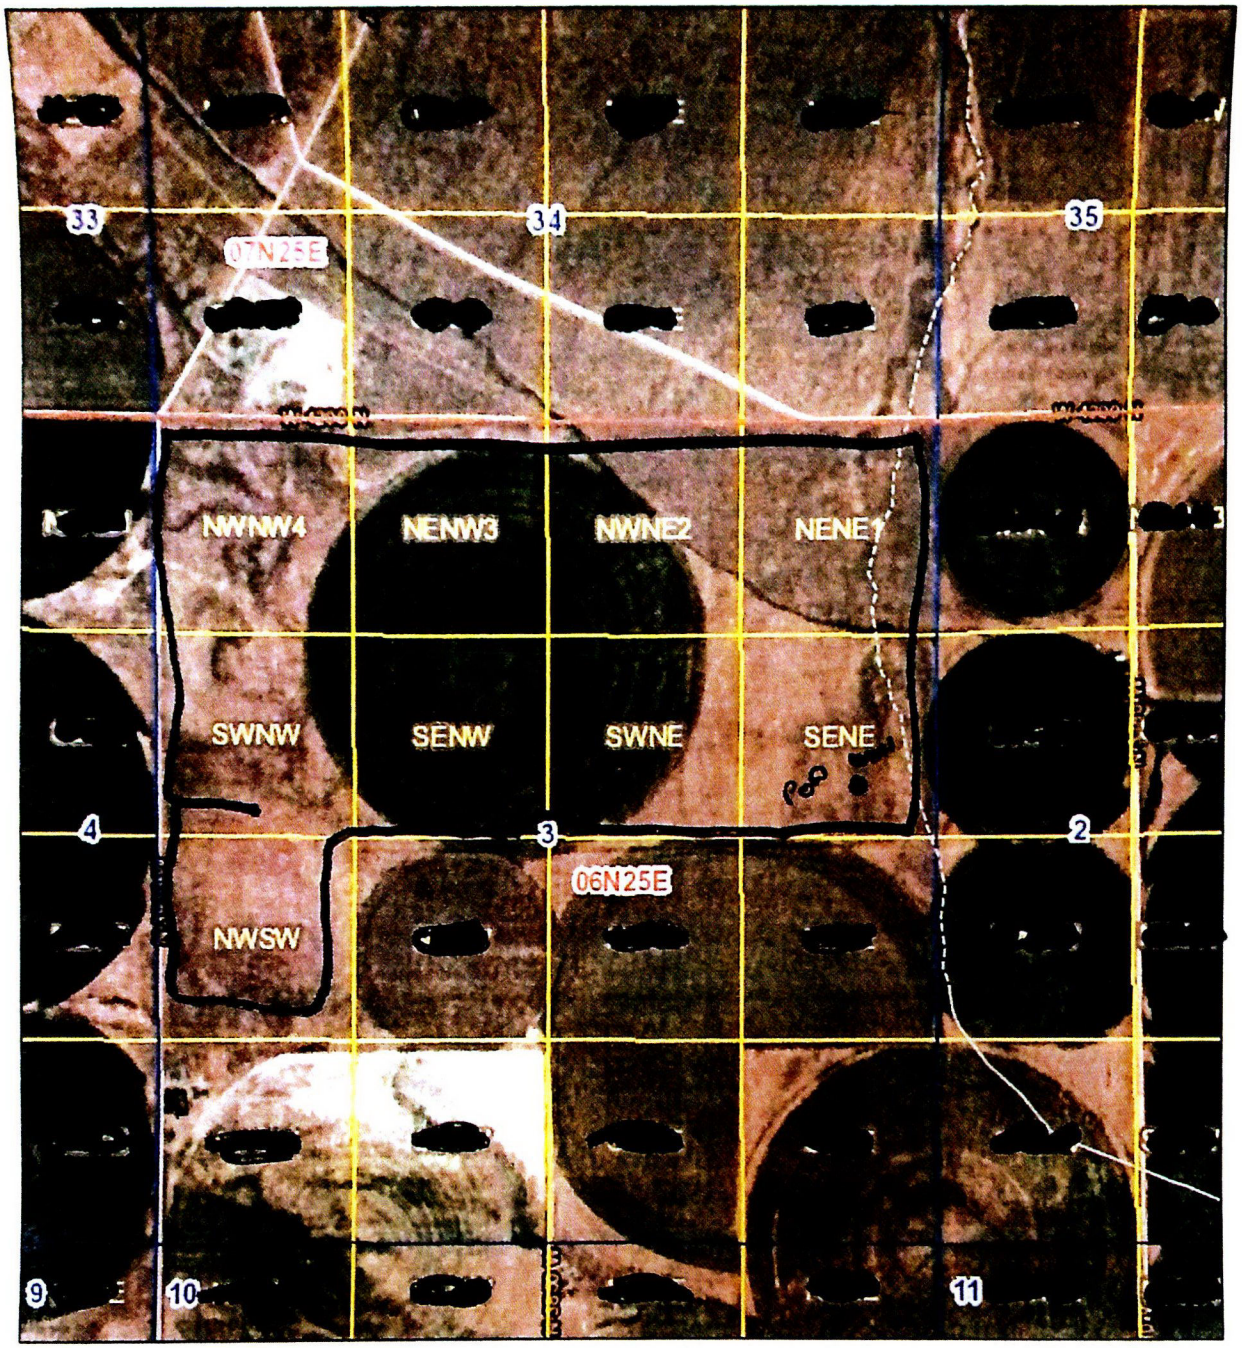

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 34-713B, AGREEMENT 735

Dear Renter:

Please find enclosed a receipt in the amount of **$483.00** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 21.0 acre-feet of water for irrigation of 6.0 acres during 2023 - 2024. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or $434.70 of the rental fee will be paid to the lessor(s) and 10% or $48.30 will be retained by the Department to offset administrative costs for 2023.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Water Supply Bank

RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO. 34-713B AGREEMENT 735

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of $483.00 per year was calculated based on the current rental rate of $23.00 per acre-foot times a diversion volume of 21.0 acre-feet.

Please send a check for $483.00 for 2023 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement**, **within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or $434.70 of the rental fee will be paid to the lessor(s) and 10% or $48.30 will be retained by the Department to offset administrative costs for **2023**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S).34-14047 & 34-13873, AGREEMENT 690

Dear Renter:

Please find enclosed a receipt in the amount of **$1,529.50** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 66.5 acre-feet of water for irrigation of 19.0 acres during 2023 - 2026. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or $1,376.55 of the rental fee will be paid to the lessor(s) and 10% or $152.95 will be retained by the Department to offset administrative costs for 2023.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Water Supply Bank

MEMORANDUM FOR AGREEMENTS # 690 & 735

To: Water Right(s) 34-713B, 34-13873, 34-14047

From: Mary Condon

Date: December 8 – 22, 2022, March 23, 2023

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE: Application to rent additional surface or ground water for irrigation received April 2022 to begin in 2022 but was unable to be reviewed before the latest start date and per the applicant was pushed to 2023. Rental diversion is within a modeled tributary aquifer to the Eastern Snake Plain Aquifer (ESPA) for the ground water, and surface water is from the Big Lost River. Rental applicant requests as many additional acres up to 100 acres and for as many years as possible. Applicant submitted the required successful ETRAN modeling for requested supplemental ground water right 34-14047 for 19 acres (5 acres are primary), along with overlapping surface right 34-13873 for 14 acres, leased 2023 through 2026.

Update March 20, 2023: Review of additional available leased rights to fulfill rental request finds one senior surface water right (34-713B) for 6 acres as well as primary ground water right 34-7195 for 20 acres, but each right is only leased until December 31, 2024. Comment received from Eastern Region that 34-7195 cannot move above Moore, as it would cause injury to other rights, and as such is removed from consideration.

This rental will be partially satisfied with 6 acres of surface right 34-713 B for years 2023-2024 through Agreement 735, and the combined limit of 19 acres from surface right 34-13873 & ground water right 34-14047 for years 2023-2026 as Agreement 690.

AUTHORITY TO FILE: Application to rent is from Kirk Jolley, and rental POU and ground water well parcel information is in the name of Rafter J Cattle Co., of which Mr. Jolley is the director/agent for. Surface water is delivered through the Burnett Ditch. Permission from the ditch company was not included in the application but was received in December 2022.

WATER RIGHT VALIDITY: Rights offered as part of this rental review are leased to the bank for the period of rental proposed. A review of aerial and Landsat imagery for this rental of lands under offered rights prior to lease finds them to be valid. No concerns with validity.

INJURY TO OTHER WATER RIGHTS: Rental diversion of ground water is within the ESPA model boundary but outside of the ESPA GWMA, in the Big Lost area just southwest of Mackay. Etran 3.4 ESPA modeling was provided for ground water right 34-14047 requested.

Surface water rental point of diversion from Big Lost River is known as Burnett diversion. Proposed surface right 34-713 B for Agreement 735 is leased from the Big Lost River approximately 7 miles south of rental diversion and has an 1885 priority date, which is slightly better than the priority of surface rights existing at the rental POU.

Proposed surface right 34-13873 for Agreement 690 is authorized from Alder Creek, which also enters the Big Lost River below the Burnett ditch. To avoid potential injury, diversion of the Alder Creek right must first be available and in priority at the original diversion, before diverting from the Big Lost at the rental POD. There are 22 rights diverted from Alder Creek, with 12 sharing the same date of 9/30/1882 as the proposed right for rental, and only one older than 1882 for 0.02 cfs for stockwater. There are also 292 unique water rights diverted from the Big Lost River between the rental point of diversion at Burnett Ditch and the point in which Alder Creek enters the Big Lost, of which only two rights are senior to 1882. A large portion of the 292 rights mentioned are diverted into the Burnett ditch.

See Table 2 at end of this memo for list of Alder Creek rights sorted by priority date, and Table 3 for PODs listed by priority between/from Burnett Ditch to the point in which Alder Creek enters the Big Lost River which are equal or senior to the Alder Creek right. No injury is expected through the rental of these surface and ground water rights, so long as the rented surface water rights are in priority and available at the original points of diversion prior to diversion at the rental diversion.

ENLARGEMENT OF USE: Proposed rights for these rentals are to fulfil the renters request for senior surface water rights to extend how long surface water can be used on rental POU as well as increase the number of acres to use ground water including when surface water is out of priority. Existing rights on rental POU are surface rights 34-778 and 34-10190 for 192 acres and ground water right 34-14856 for 135 acres, for a total of 327 acres, so while the existing surface rights are in priority the requestor can irrigate the entire 327 acres with surface (SW) and ground water (GW), and only the 135 acres with ground water when surface water is out of priority.

Rental of more senior surface water will allow total allowable irrigation (including existing rights) while surface water is in priority to be 352 acres, as 212 acres from surface and 140 acres from ground water, and when all surface water is out of priority only 154 acres from ground water. See Table 1 below for priorities and total allowable.

Existing		Acres	
6/1/1886	34-778	80	
3/10/1894	34-10190	192	limit
GW	34-14856	135	additive
	total	327	
Rental

5/30/1885	34-713 B	6	additive
	total	25	
	Exist + rental	**352**	

	SW	GW	Total Acres
3/10/1894	212	140	**352**
6/1/1886	100	140	240
5/30/1885	20	140	160
*9/30/1882	14	140	154
Out of Priority	0	154	154

*Alder Creek right

Table 1, Acres with SW by priority and GW rights

Existing and rights proposed for rental all have full duty, at 0.02 cfs per acre (except existing SW right 34-10190 and rental SW right 34-13873 with 0.03 cfs/acre for conveyance) and standard headgate of 3.5 af per acre. No enlargement of existing rights or the proposed rights through this rental is expected.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental is for beneficial use and appears consistent with the conservation of water resources in Idaho. Prioritizing surface water diversions, rather than depending on ground water, conserves and replenishes the underlying aquifer.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental PDs are within Eastern Region, the Big Lost River Ground Water District and is subject to Water District # 34. Request for comments or concerns sent via email on December 9, 2022. An additional email was sent to the Big Lost River Irrigation District manager, as well as a different email address for the watermaster in District 34, on December 21, 2022. Watermaster comments received on January 23, 2023, is that there is a lot of shrink in the river and Burnett, but he is okay to deliver surface water rental under right 34-13873 when Alder Creek makes it to the Big Lost River. Region Manager is okay with this rental, less the 34-7195 GW right, per email on March 20, 2023.

WATER SUPPLY BANK COMMENTS AND RECOMMENDATION: A telephone conversation with the renter during the review and a review of 2022 sentinel imagery (See Image 1, below) shows they have changed the layout of their pivot system to two pivots side by side instead of just one in center. This rental will consider the legal POU descriptions under the existing rights and the new pivots in 2022, for the rental POU shape and description.

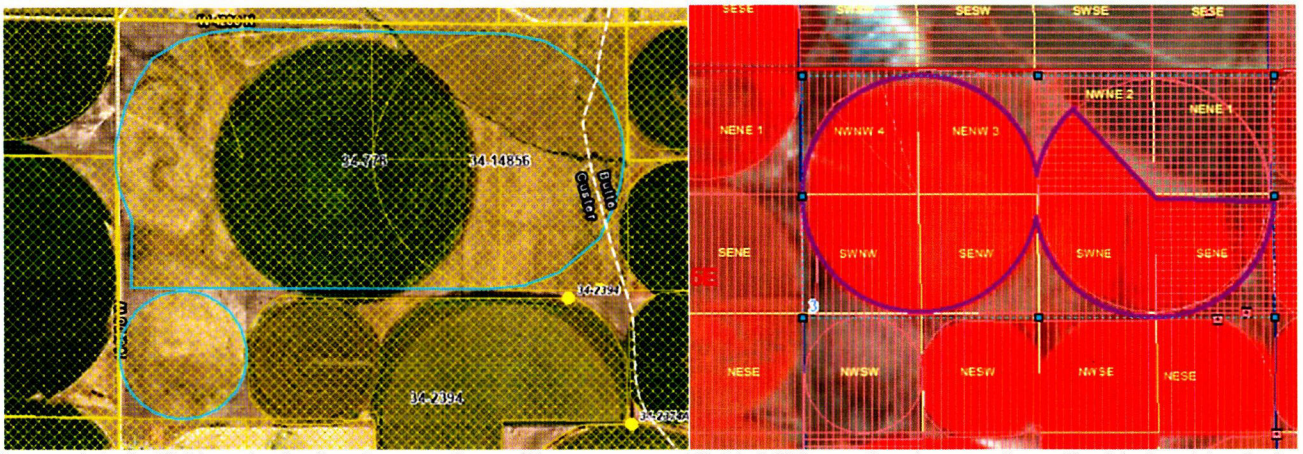

Image 1, Left: 2021 and prior farming practices with one pivot. Surface water right POU outlined in blue. Right: 2022 new farming practice with side-by-side pivots.

I am okay with it as long as Alder creek has enough water to make it to the river. and do they know that there is a lot of shrink in the river and the Burnett canal

Hi Preston,

Have you given this rental proposal more thought? Do you need more information or are you okay with a source exchange for rental water?

Thank you,

Mary

Thank you for the clarification.

On Wed, Dec 28, 2022 at 9:26 AM Condon, Mary <Mary.Condon@idwr.idaho.gov> wrote:

Hi Preston,

To clarify, the proposal is a type of exchange. The Alder Creek water offsets/replenishes what is pulled from the Big Lost above at Burnett canal, so the only time Jolley can use the Alder Creek water is when it is in priority and available/spills into the Big Lost. This evaluation includes looking at reduced availability between the new diversion at Burnett and the confluence of Alder Creek in the Big Lost. If Alder Creek never reaches the Big Lost, then I can understand not approving this type of exchange because the withdrawal would not be offset. Your knowledge of the availability in that area is important, so I'll rely on you to guide us on whether this will cause injury or is not likely to injure other Big Lost water users between the two points.

Best,

Mary

Mary. I don't approve the Jolly water bank transfer. I don't think that it is possible to deliver Alder creek water to them.via the Burnett canal. I am going to look into this some more. Preston Marcroft. Watermaster. District 34

Kevin and Preston,

Please see attached review for a rental by Jolley to use additional water on their lands for irrigation. I sent the below email two weeks ago. Please reply with comments, concerns, or recommendation for approval or denial within 10 days.

Best,
Mary

Subject: WSB rental proposal - Jolley

Good afternoon,

Please see the attached rental review memo and move map, and kindly respond within 10 days with comments or concerns on the proposal. Watermaster comments are requested.

An approved rental may be all four proposed rights for 2023-2024 or may be split into two different rentals as one rental for 2023-2024 of two rights and one rental for 2023-2026 of the other two rights, due to lease terms on proposed rights. A summary of the lease terms of the proposed rights for this rental is within the review memo.

Best,
Mary

Subject: FW: Water Bank Application

Mackenzie,

Please update the rental application for Jolley to four years and print/insert his request below in the application folder. The ESPA modeling is for four years and the leased rights are available through 2026, so should still be good for review.

Thank you,
Mary

Hi Mary,

We talked the other day and I just wanted to specify that we wanted to rent that water for 4 years not just two. The application is under Kirk Jolley's name. Do you have an update on when you think that application will be completed?

Thanks
Jake Jolley

Thank you. Is there more 1884 surface water available?

Hi Kirk,

The rental rate is at $20/acre-foot (af) in 2022 then goes up to $23/af in 2023-2030, at 3.5 af per acre, which would be approximately 66.5 af for 19 acres. The leased Alder Creek water w/ groundwater is conditioned so that the surface water must be taken first for 14 acres, but 5 additional acres can be used without surface water. So, while the Alder Creek portion is in priority, you would be pulling from the Big Lost for 14 acres and 5 acres from groundwater until Alder Creek is out of priority, then you could pull from groundwater for entire 19 acres. It is leased to the bank through the end of 2026. Additionally, since the Big Lost water you divert currently is through Burnett ditch and a rental of surface water would increase water within the ditch, you must also provide a letter from the provider for permission to increase diversions within the canal/ditch through a rental. The watermaster would also be made aware of the rental proposal and provide comment prior to any approval.

Thank you for getting back to me. What is the price to rent the 1884 surface water.
Is there more 1884 available? How long will they lease it for? If there's know surface water for the Alder creek could we get the 18 acres ground water?
Thanks Kirk

Hi Kirk,

Your proposed rental for groundwater is within the ESPA boundary, so ESPA modeling with the identification of leased water rights to rent are required as part of the application. Unfortunately, I cannot find any suitable groundwater rights available for your rental needs in that drainage that are not already requested through other rental applications. There is one groundwater right 34-14047 just to the west of you for 19 acres, but it is combined with Alder Creek surface water tributary to Big Lost for the same acres with a condition to use surface water first. There are a few Big Lost surface water rights leased to the bank, including one for 85 acres just south of you, with 1884 priority.

Rental application processing is overwhelmed currently, so it could be mid-June before your application could be approved, if water rights are made available and will not cause impact per the modeling. More information about the ESPA modeling requirement is on pg 6 of the rental application, and under the WSB Resources tab on our website.

Hi Mary, I just resent that application and a picture of the map.
I hope it has all you need. If I need something more please let me know.
Or if I need to do something different.thank you. I sent it to file@idwr.idaho.gov
Thank you Kirk Jolley

Also, please either scan a clearer map or mail one in. It is too dark to see the place of use (POU) outline and I couldn't find the point(s) of diversion POD(s) on your map.
