RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.

WATER SUPPLY BANK RENTAL AGREEMENT No. 825

9. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
10. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
11. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
12. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
13. This right does not grant any right-of-way or easement across the land of another.
14. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
15. This rental agreement does not authorize the construction of a well.
16. Rental of rights 29-2395, 29-14012, 29-14013 and 35-14041 when combined shall not exceed a total diversion rate of 2.53 cfs, a total annual maximum diversion volume of 880 af at the field headgate, and the irrigation of 220 acres.
17. Prior to December 31 of each year, the Board may review this rental agreement to determine whether it is consistent with the management plan that may be approved for the Eastern Snake Plain Aquifer Ground Water Management Area ("ESPA GWMA Plan") pursuant to Idaho Code § 42-233b. 4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☑ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. **If no,** continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request**. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)

						CFS	**AF**	**AC**

****Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.***

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

System can operate within limits requested

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

---

PURPOSE/NARRATIVE: Rental Application #2806 was submitted by Jason C. Helms (JCH Civil, LLC) on behalf of PEP, LLC and was received by the Department on 11/1/2023. The application requests to rent a total of 220.0 acres of primary groundwater for irrigation at a location with no existing water rights. The proposed place of use is the same at Rental Agreement #749 (2023).

	GWMA	Water District	Ground Water District
29-2395	ESPA	120	None
29-14012/29-14013	ESPA	120	None
35-14041	ESPA	120	Bingham
Rental Application #2806	ESPA	120	Aberdeen-American Falls

AUTHORITY TO FILE: The application was signed by Chris Pratt who is listed as the registered agent on PEP, LLC's most recent IDSOS annual filing (5/4/2023). The land at the proposed POD/POU is owned by PEP, LLC. No concerns with authority to file.

WATER RIGHT VALIDITY: Water right validity was evaluated at the time of the lease review and found no concerns.

INJURY TO OTHER WATER RIGHTS: As this rental is within the ESPA GWMA, ETRAN V3.4 modeling was completed and found that no mitigation would be required. See the attached results and data entry. Modeling for this rental considered previous Rental Agreement #749 (2023) which rented the same amount of water for the same location, but solely from rights 29-2395 and 35-14041. There will not be a change in source and the leases are also within the ESPA GWMA. No concerns with injury to other water rights.

ENLARGEMENT OF USE: Rights 29-2395, 29-14012, and 29-14013 have a season of use of 4/1-10/31; right 35-14041 has a season of use of 4/1-11/1. The season of use for this rental will be 4/1-10/31. There are no water rights overlapping the rental POD or POU. There will not be a change in beneficial use. All rights being rented are considered primary groundwater and will continue to be used as such under this rental. No concerns with enlargement of use.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the rental POD is subject to Water District #120. A request for comments was sent to the WD #120 watermaster, Aberdeen-American Falls GWD, and IDWR Eastern Regional Office on 2/9/2024.

Etran V3.4 Run PEP LLC Rental Application #2806, considers 2023 Rental Agreement #749
