STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 660

RECEIVED
OCT 31 2022
DEPARTMENT OF
WATER RESOURCES

This is to certify that:

D CASE LLC
198 W 500 N
BLACKFOOT, ID 83221-5736

D COOPER LLC
578 N 100 W
BLACKFOOT, ID 83221-5714

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
35-2178B	7/8/1950	GROUND WATER	1.35	360.0	90.0	0.015	4.0
Combined Rental Totals			**1.35**	**360.0**	**90.0**	**0.015**	**4.0**

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2022. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2022, whichever occurs last.

Annual Rental Fee:

2022: $7,200.00

The full fee for the rental of the above-described right(s) is $7,200.00 for 2022. The rental fee includes an administrative fee of $720.00 for 2022.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 660

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

Signature of Renter — Date: 10-25-22

Printed Name: Deer Creek Dairy LLC — Title: owner

*Title required if signing on behalf of a company or organization or with power of attorney

Having determined that this agreement satisfied the provisions of Idaho Code § 42-1763 and IDAPA 37.02.03.030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and condition herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board.

By _____ Date 11/1/22
BRIAN PATTON, Acting Administrator
Idaho Water Resource Board

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.

WATER SUPPLY BANK RENTAL AGREEMENT No. 660

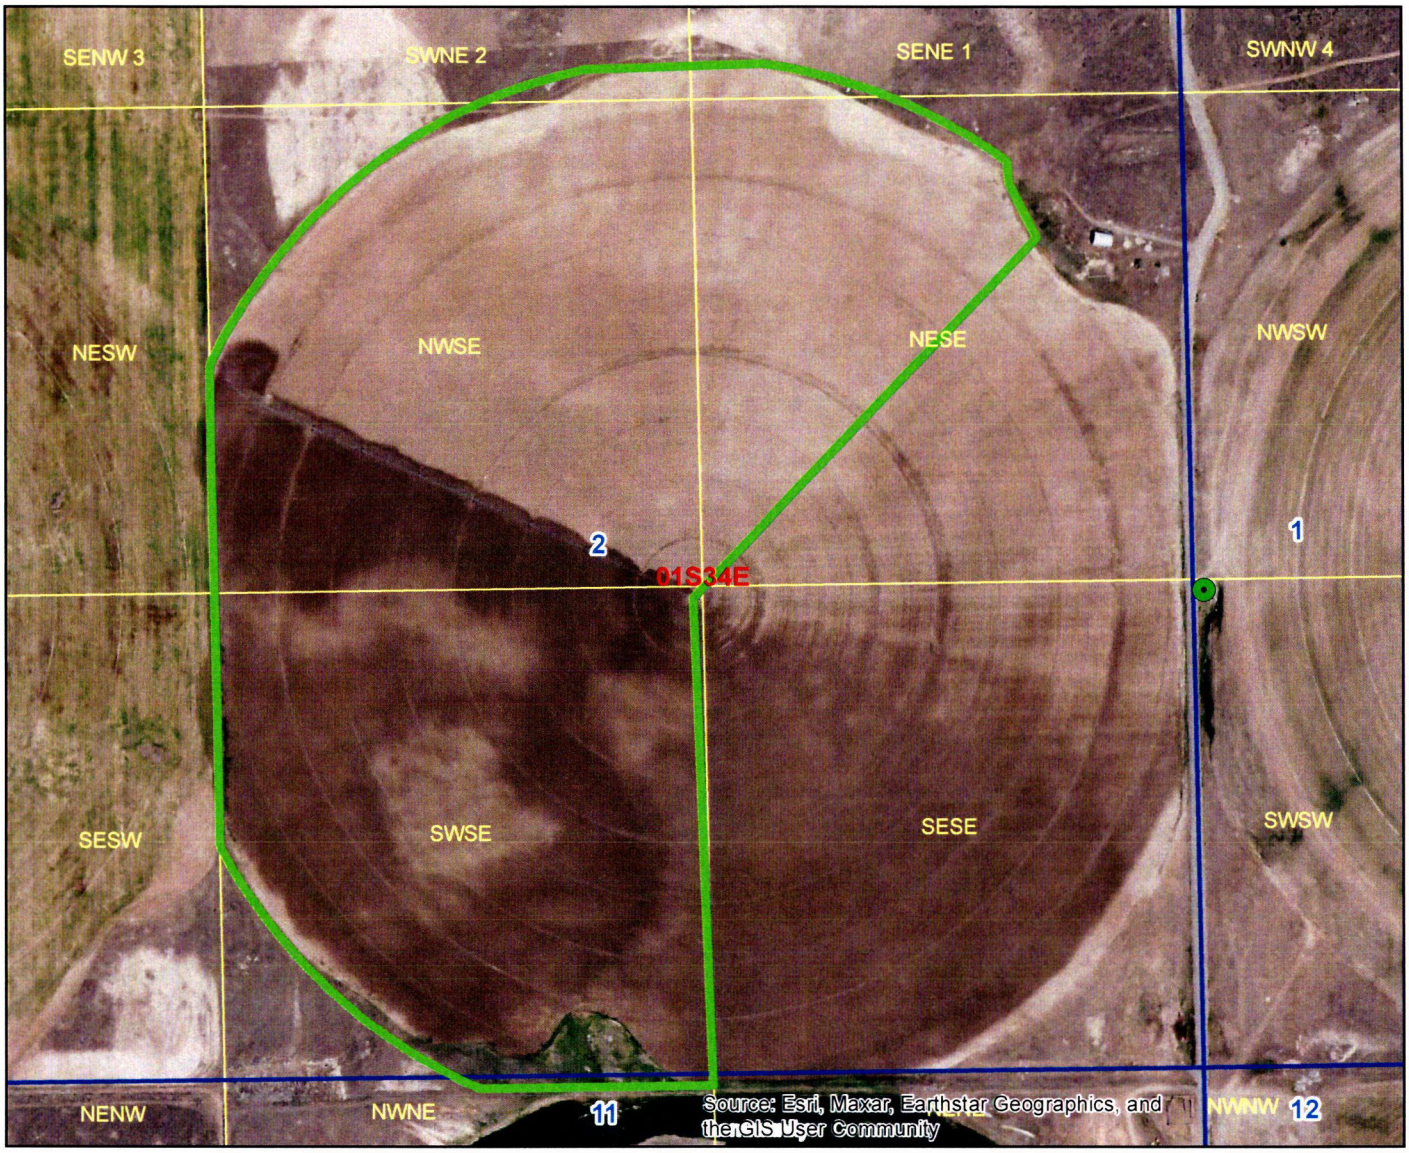

10. The renter shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
11. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
12. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the place of use.
13. Right No. 35-2765 is also diverted through the point of diversion described above.

APPLICATION TO RENT WATER FROM THE BOARD'S WATER SUPPLY BANK

Applicant Name: Cooper LLC and Case LLC

Is this application being submitted with a lease application as a lease/rental package? **Yes** ☑ **No** ☐
If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant Cooper LLC and Case LLC

Mailing Address 578 N 100 W Blackfoot Idaho 83221
Street City State Zip Code

Email Address _____ Phone Number 208-604-2292

B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☑ No ☐
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Greg Sullivan Professional Title Engineer

Organization Brockway Engineering Relationship to Applicant Consultant

Mailing Address 2016 N Washington St Ste 4 Twin Falls, Idaho 83301

Email Address greg.sullivan@brockwayeng.com Phone Number 208-736-8543

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:
This rental water will allow a full rotation of the irrigation pivot for the 2022 irrigation season.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
1.35 CFS	338.0 AF	1.35 CFS	338.0 AF	84.5 AC

* ***Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.***

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
		1	2	3	4	5		
4/1/2022	6/15/2022	☑	☐	☐	☐	☐	☑ Process application as soon as possible	☐ Return application to applicant

* ***The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.***

** ***Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.***

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):
Existing POD, existing mainlines, existing delivery system.

E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
01S34E01NWSWSW	Ground Water	35-2765

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☑
If yes, include documented consent as **Attachment 3F**.

G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☑ No ☐
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

H. Has water modeling been provided with your rental request? Yes ☑ N/A ☐
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

☑ Irrigation 84.5 (number of acres) Duration: Subject to IDWR standard seasons of use

☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)

☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)

☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☑
If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

K. Do you own the land at the proposed rental place of use (POU)? Yes ☑ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:
35-2765

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights? Yes ☑ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. **If no,** continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via IDWR's website.

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request**. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
35-2178B	Irrigation	1.35	360	90.0		1.35	360	84.5
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	1.35 CFS	360.0 AF	84.5 AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☑ No ☒

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

Water has previously been rented, applicant continues to search for water right to purchase

B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☑

If yes, describe:

C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☐ No ☑

If yes, describe the date and location of the NOV.

D. Additional Information

None

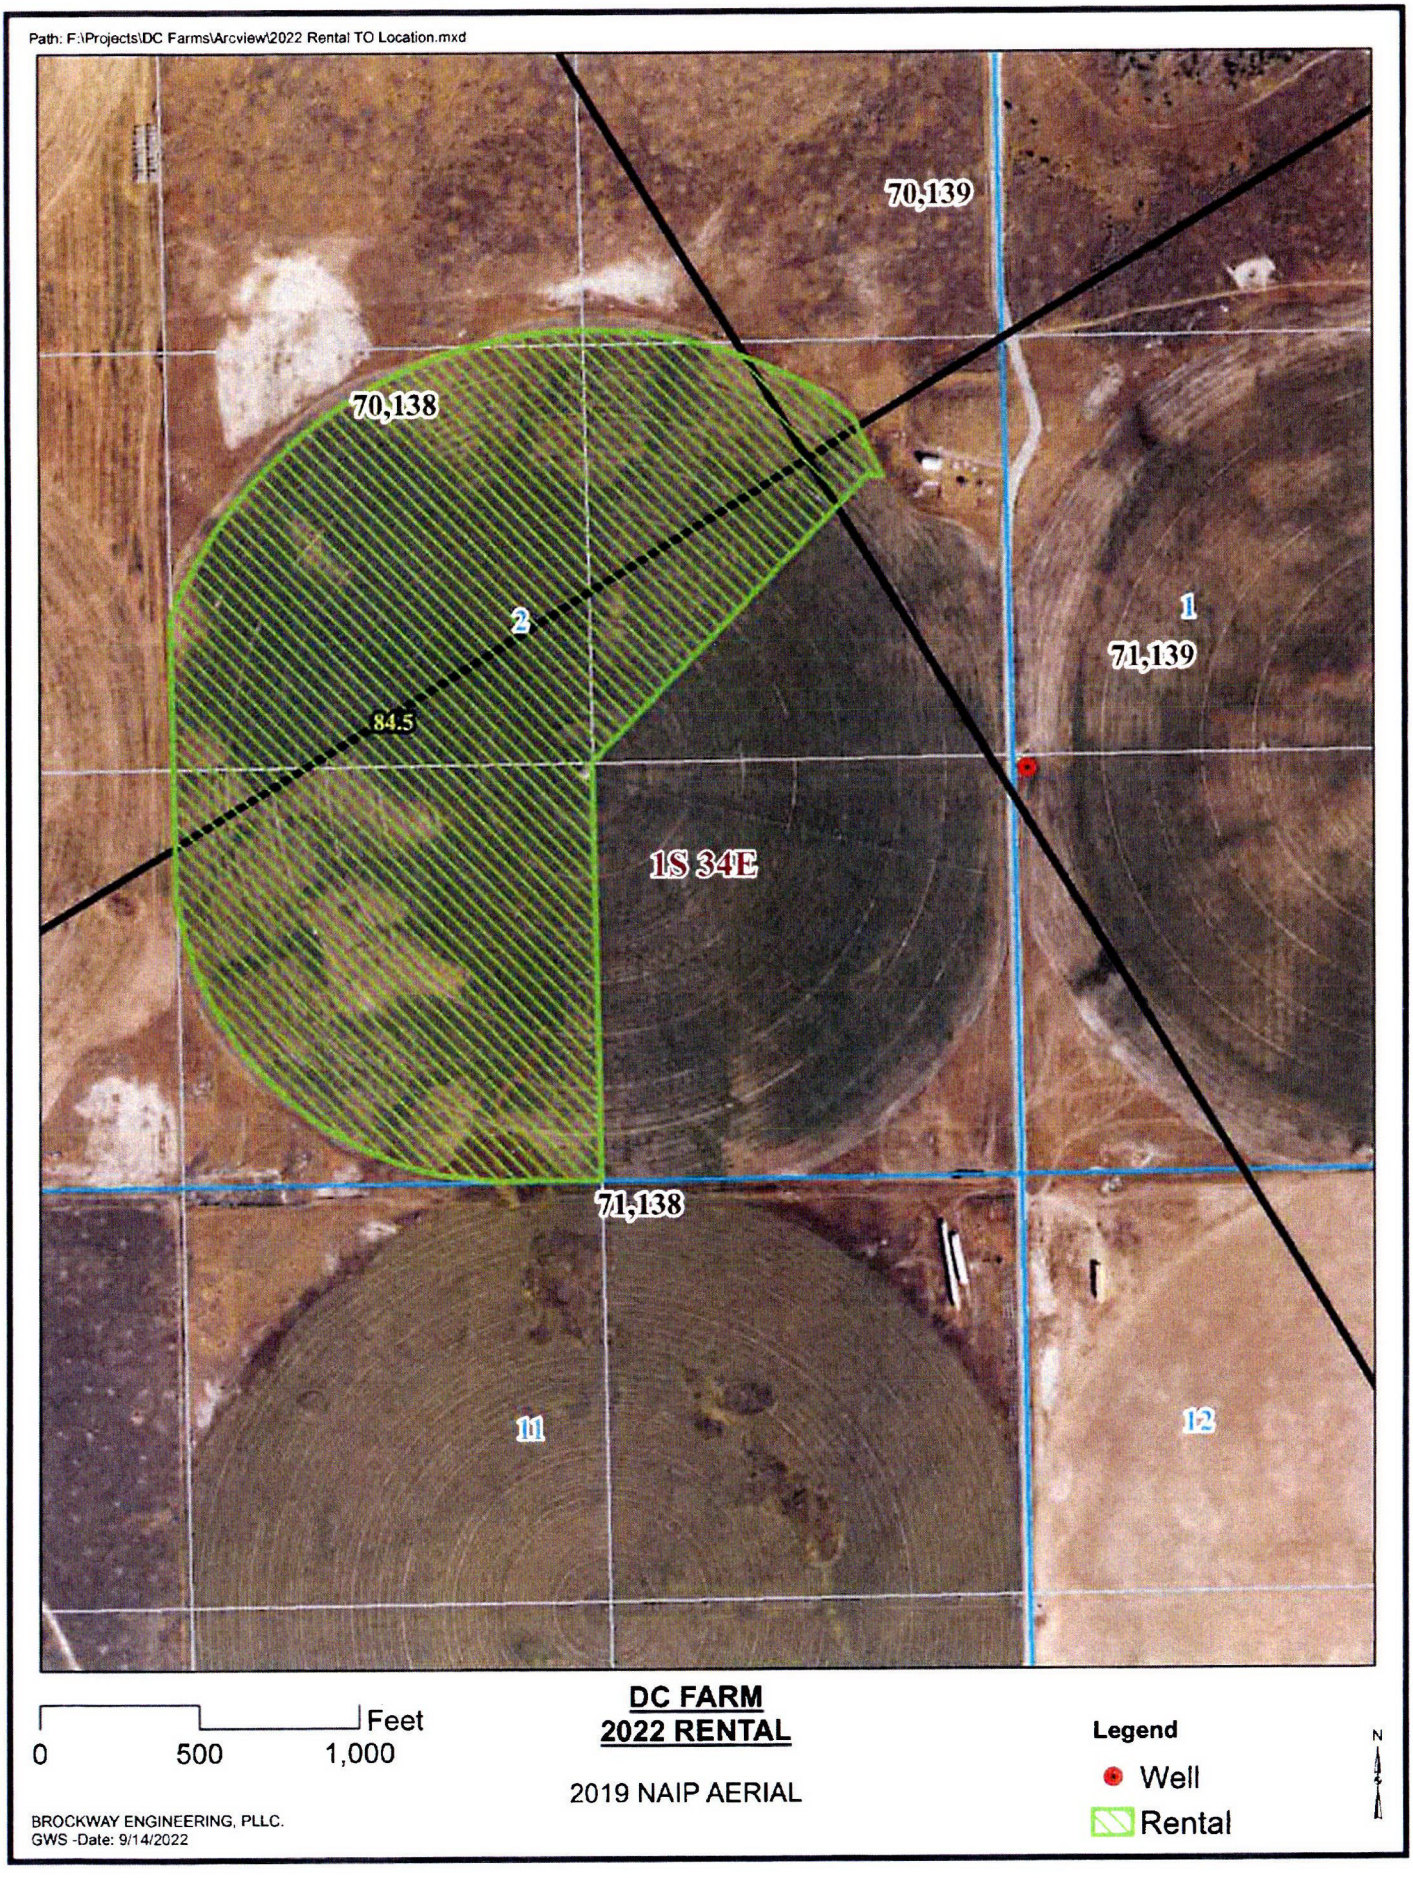

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
35-2177	Irrigation	1.14	227.2	56.8		1.14	227.2	56.8
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	1.11 CFS	222.0 AF	55.5 AC

SUPERCEDED

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

The proposed rental of 227.2 acre feet will be limited to a diversion of 208.0 acre feet on 52.0 acres.

C. Does your rental request propose to change the nature of use for any water right(s) being rented? Yes ☐ No ☑

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 35-2178B, AGREEMENT 660

Dear Renter:

Please find enclosed a receipt in the amount of **$7,200.00** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 360 acre-feet of water for irrigation of 90 acres during 2022. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or $6,480.00 of the rental fee will be paid to the lessor(s), and 10% or $720.00 will be retained by the Department to offset administrative costs for 2022.

Please note the above rental agreement concludes at the end of **2022**. Once the rental agreement concludes, any diversion or use of water under this rental will no longer be authorized. If you wish to rent water in the future and have not already done so, you can download and complete an Application to Rent Water Rights from the Water Supply Bank by visiting the Department's website at http://idwr.idaho.gov.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK WATER RIGHT NO(S). 35-2178B AGREEMENT 660

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of $7,200.00 per year was calculated based on the current rental rate of $20.00 per acre-foot times a diversion volume of 724 acre-feet.

Please send a check for $7,200.00 for 2022 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement**, **within 14 days** so I can complete processing. An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Pursuant to the Water Supply Bank Rules, 90% or $6,480.00 of the rental fee will be paid to the lessor(s) and 10% or $720.00 will be retained by the Department to offset administrative costs for **2022**.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

Amanda Johnson-Veibell

Subject: RE: watermaster comment request

HI Michele,
I had Bob Peck get a flow meter reading from the point of diversion associated with the 90.0 acres under water right 35-2178B (Christensen Farms). Based on the Flow meter reading Christensen has diverted 91.84 AF. Water measurement notes for WMIS # 500185 indicate that the pump only provides water to the 90-acre pivot and a wiper pivot. There appears to be a couple of pivot corners that may be irrigated from the well. The total number of acres under the wiper pivot and two pivot corners is approximately 24.0 acres. 91.84 AF applied to only 24 acres is a significant amount of water (91.84 af/24 acres =3.8 af/acre) I am concerned that Christensen may have irrigated the 90.0 acres. I don't oppose the lease/rental if Christensen can validate that the 90.0 acres was not irrigated and justify why 91.84 af was diverted from the well associated with WMIS # 500185.

Thanks,
Blake

Subject: watermaster comment request

Blake,
I have completed my review of an amended WSB lease-rental package for D Cooper LLC - D Case LLC or DC Farms for ground water use in district 120 and Bingham GWD. This was a tough one.

The original proposal failed when I found that Cooper-Case didn't idle the acres that they had offered as the leased water. But they still needed rental water to complete the pivot in sec Twp 1S Rge 34E which is now property owned by Gardner Farms. Brian Normandeau has a transfer proposal which should help a little with next year's water needs.

Luckily, Cooper-Case knew somebody who knew somebody or had a cousin twice removed that wasn't using some of ground water under a water right and made it available as a substitute lease. A 90-acre portion of right 35-2178B (Christensen Farms) was idled. Cooper-Case stated that the vegetation seen early in the year was oats, watered by rain only and harvested in July. August Sentinel imagery confirms the harvest and that the field is idled now.

I phoned the manager of Bingham GWD this morning and discussed this water move briefly. He chuckled and was not opposed to it. I offered to send him a brief summary for the district's reference and accounting and he stated he would be happy to accept it.

I have attached a map of the water move.
Let me know if you have any concerns about this lease-rental or if you need to see my full memo.

Thanks
Michele

Subject: amended rental application for DC Farms

Greg,
I am working with Mackenzie (and I have cc'd her with this message) to close out unneeded leases and rentals for DC Farms and to amend the rental that we want to retain.
To make our 3 to 1 DC Farms rental application consolidation easy, we would really appreciate an amended rental application from you which will become refurbished application 2230. We don't need a new signature page, but we do need updates to the other pages.

I am assuming that you will be able to make the changes to the electronic rental application you have stored for DC Farms and that the turnaround for this request will be quick. Just let me or Mackenzie know if you'll need more than a couple days.

As always, best regards,
Michele

Michele,

I was able to talk with a representative of DC Farms this morning regarding these 90 acres that we desire to lease into the Idaho Water Supply Bank.

DC Farms is adamant that his field has received no irrigation water during the 2022 irrigation season.
There was a crop of oats that was planted in this field in May.
There was several good rainstorms that provided some water for the crop.
The oat crop was swathed sometime mid-July.

The imagery that you provided below provides proof that the oat crop was indeed a vegetative crop that the satellite imagery captured. The imagery confirms that the vegetative state and process of the oat crop to maturity occurred and the crop was harvested in July.

The 90.0 acres was set aside for non-irrigation in conjunction with the Bingham Ground Water District and the Farm Service Agency.

Please give me a call to discuss.

Thank you,

Greg Sullivan

Michele,

You are correct. The other two rental packages 2322 and 2323 would not be needed.

The 90.0 acres under 35-2178B will only be for the 2022 season and is needed to satisfy rental agreement 2320.

Any extra water from the 90.0 acres under 35-2178B that is not needed to satisfy rental agreement 2320 could be rented out to other water users.

Subject: RE: DC Farms Rental and New Lease Application

Greg,
I need a confirmation from you.
This new lease proposal has more than sufficient quantities of water to take the place of two of the rental applications that you had submitted earlier this year on behalf of Cooper LLC and Case LLC. Those proposed rentals acted on Water Rights 35-14407 (rental application 2322) and on 35-13340 and 35-13362 (rental application 2323).

The lease proposal from Christensen Farms Inc. will be part of a single WSB lease-amended rental package for the 2022 irrigation season. The other two rentals are no longer needed.
Correct?
Michele

Michele,

See the attached lease application for 90.0 acres from 35-2178B that will be used to satisfy rental agreement #2320.

Check #17108 for $250.00 will be delivered and received at the IDWR Twin Falls office today.

Subject: RE: help interpreting Sentinel imagery

It can be tricky to determine dryland farming. The vegetation in the July 4th image appears to be fairly healthy, so...¯_(^^)_/¯
It would be worthwhile to look at more images for the growing season if in doubt. Maybe you can see evidence of the pivot being on at sometime early in the season?

Below is the cropland data layer (CDL) data for that pivot for the last 5 years
2017: potatoes
2018: corn
2019: winter wheat
2020: potatoes
2021: winter wheat
I'm checking on whether 2022 CDL is available. I don't believe it is until next January...

S2A and S2B are two different, yet similar, Sentinel satellites. Each individual satellite captures a specific location every 10 days. You can consider their orbits to be 180 degrees apart from each other so that between the two satellites, any one location is captured every 5 days instead of 10.

Thanks
This is a concern for the water supply bank because they are stating the acres were not irrigated this year. Maybe its some sort of dry land farming.
2nd question… what is the difference between the S2A and S2B layers?

Hi Michele,

Yes, the July 4th image has the ¾ pivot with fairly dense vegetation.
The July 24th image shows a cleared field (harvested) with no vegetation. The exposed ground/dirt is dry and contains a little bit of moisture (compare it to the very dry, compacted soil around the house/infrastructure)
Below is a screen shot from the 2021 NAIP for reference (I realize it is old for your imagery but is still helpful).
The small almost ½ pivot in the SESW corner is vegetated in the July 24th image and not so much in the July 4th image.

Good job on the interpretation!

help interpreting Sentinel imagery

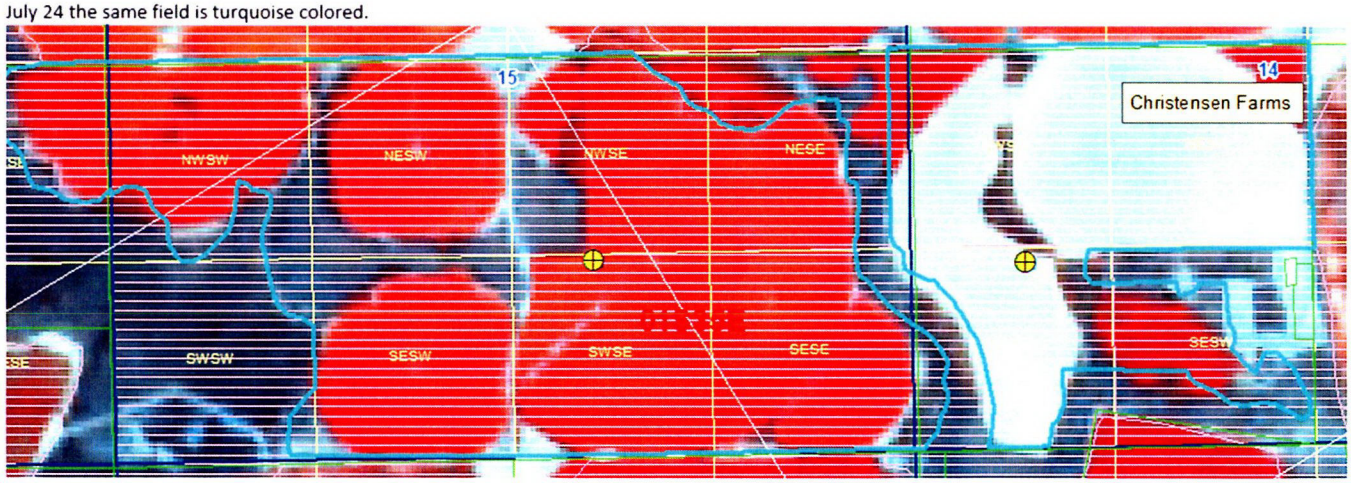

Edl, Michele
To Wilkins, Margie

Margie,
I am looking at a particular field as it appears in 2022 Sentinel imagery and I'm not sure I'm understanding the color correctly.
I am looking at T12TUN_S2A or S2B_2022....
July 4 the Christensen Farms field appears a pretty tomato red

July 24 the same field is turquoise colored.

Would the later image depict a harvested field?
Thanks
Michele

Subject: DC Farms lease acres not idled

Greg
This afternoon I revisited the DC Farms leases and the three Cooper and Case rentals.
Although Jean completed the leases some time ago, they were not sent out. And I was going to push them forward. You and I need the lessors to be in compliance with those lease commitments for their self-serve rental to work. This afternoon I reviewed July 2022 Sentinel imagery and found that the leased acres were being irrigated. See the screen snips below. The green hatched acres were to be idled as proposed by the lease applications.

NWNE

And I found that the proposed POU for the rental also appeared to be irrigated.

I am reluctant to recommend that either of the lease proposals be approved or the 3 rental which depend on them.
Do you have alternative rights for DC Farms to rent?
Michele
