

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 738

RECEIVED

JUN 30 2023

DEPARTMENT OF
WATER RESOURCES

This is to certify that:

EAST VALLEY CATTLE LLC
471 N 300 W
JEROME, ID 83338-5078

filed an application to rent water from the Water Supply Bank ("Bank"). The Idaho Water Resource Board ("Board"), being authorized to operate a Bank and to contract by and through the Director of the Idaho Department of Water Resources ("Director, Department") for rental of water from the Bank, agrees to rent water as follows:

Summary of Water Rights or Portions Rented from the Bank

Water Right No.	Priority Date	Source	Diversion Rate (CFS)	Diversion Volume (AF)	Acres (AC)	Rate Per Acre (CFS/AC)	Volume Per Acre (AF/AC)
43-13448	3/2/1950	GROUND WATER	0.20	47.2	11.8	0.017	4.0
Rental Totals			0.20	47.2	11.8	0.017	4.0

Term of Rental: This rental agreement shall take effect when all parties have signed it and shall continue in effect until December 31, 2027. Use of rental water shall be authorized as of either the date this rental agreement takes effect or the first day of the rental season of use, in 2023, whichever occurs last.

Annual Rental Fee:

2023 - 2027: \$108.56 annually

The full fee for the rental of the above-described right(s) is \$108.56 per year for years 2023 - 2027. The rental fee includes an administrative fee of \$108.56 per year for years 2023 - 2027. The administrative fee required for this rental is calculated using more decimals than the rounded amounts recorded on this agreement. Note that the renter is obligated to pay only the administrative fees associated with the water right(s): 43-13448.

An annual payment shall be received by the Department on or before December 31 each year preceding the use of the rented water rights. The agreement will be void if payment is not received by the due date in a given year. Rental fees are non-refundable. To voluntarily terminate the agreement early, notify the Department in writing prior to the rental fee due date.

Total Water Use Authorized Under Rental Agreement

Beneficial Use	Diversion Rate (CFS)	Diversion Volume (AF)
INDUSTRIAL	0.20	30.2
Combined Total	0.20	30.2

** The authorized water usage reflects a reduction from the water right elements rented, to account for a change in nature of use.*

Detailed water right conditions are attached.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

WATER SUPPLY BANK RENTAL AGREEMENT No. 738

The undersigned renter agrees to use the water rented under this agreement in accordance with the Water Supply Bank rules and in compliance with the limitations and conditions of use described in this agreement:

X  June 27, 2023
Signature of Renter Date
William J. Millenkamp Manager
Printed Name Title

*Title required if signing on behalf of a company or organization or with power of attorney

Having determined that this agreement satisfied the provisions of Idaho Code § 42-1763 and IDAPA 37.02.03.030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and condition herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board.

By  Date 7/6/23
BRIAN PATTON, Acting Administrator
Idaho Water Resource Board

RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. The renter shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that the amount of industrial diversion entering the gravel washing area can be measured and will provide the watermaster suitable control of the diversion(s).
10. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No.143.
11. This rental does not authorize the construction of a well.

**APPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANK**

Cement

RECEIVED
FEB 08 2023
DEPARTMENT OF
WATER RESOURCES

Applicant Name: East Valley Cattle, LLC

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. **Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.**

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

Application to Rent Water (Continued)

1. CONTACT INFORMATION

A. Applicant East Valley Cattle LLC

Mailing Address 471 North 300 West Jerome Idaho 83338

Street

City

State

Zip Code

Email Address _____ Phone Number (208) 324-2350

- B. Is this application being completed by an authorized representative on behalf of the applicant? Yes ☒ No ☐
If yes, representatives (includes company employees if the applicant is a corporation, as well as legal counsel or consultants) should provide their information below if they desire to be included on correspondence with the rental applicant.

Representative Greg Sullivan

Professional Title Engineer

Organization Brockway Engineering

Relationship to Applicant Consultant

Mailing Address 2016 North Washington St Ste 4 Twin Falls, Idaho 83301

Email Address greg.sullivan@brockwayeng.com Phone Number 208-736-8543

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it **Attachment 2**.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

- A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them **Attachment 3A**:

Water is need for a temporary cement mixing facility.

- B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
0.21 CFS	30.2 AF	0.21 CFS	30.2 AF	0.0 AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

- C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
1/1/2023	6/31/2023	☐ 1	☐ 2	☐ 3	☐ 4	☒ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Existing well. A temporary mainline will be installed to deliver water to the gravel washing area from the well identified as WMIS # 1002796. A flow meter will be installed on this temporary mainline.

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
11S 27E Sec 26 SESW	Ground Water	43-13449 et al.

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒

If yes, include documented consent as **Attachment 3F**.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒

Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☐ N/A ☒

If yes, label modeling Attachment 3 H.

Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☐ Irrigation _____ (number of acres) Duration: Subject to IDWR standard seasons of use
- ☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
- ☒ Industrial from: 1/01 (mm/dd) to: 12/31 (mm/dd)
- ☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒

If yes, justify the rate of flow and attach any supporting documents as **Attachment 3J**. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐

If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it **Attachment 3K**.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

43-2317C et al. and 43-13449 et al.

Water is required for a temporary cement mixing facility.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
43-13448	Irrigation	0.40	92.4	23.1		0.21	30.2	0.0
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.21	30.2	0.0
						CFS	AF	AC

*Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

A total of 30.2 acre-feet of consumptive use will be pumped to the cement mixing facility.

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☒ No ☐

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

Annual consumptive use based on 2016 METRIC ET data for the pivots associated with the lease acres.

STATE OF IDAHO
WATER RESOURCE BOARD

Application to Rent Water (Continued)

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒

If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

This is a temporary facility that will be deconstructed after work is completed.

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental?

If yes, describe:

Yes ☐ No ☒

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV?

Yes ☐ No ☒

If yes, describe the date and location of the NOV.

- D. Additional Information

None

DECLARATION

I hereby assert that the information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval. I understand that if this rental application is approved, it will be subject to the provisions of Section 42-1766, Idaho Code and all applicable state and federal laws. I understand that the submission of a rental application provides no guarantee for approval of a rental agreement. I also understand that, per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right and that I am not authorized to utilize water as proposed in this application prior to the execution of an approved rental agreement.

Area 258 acres

	ET	CIR
MEAN (mm)	1005.4	780.4
AC-FT	851.03	660.57
AC-FT/Acre	3.30	2.56

These statistics were generated by the tools provided at <http://maps.idwr.idaho.gov/ET> using the METRIC (*Mapping EvapoTranspiration at high Resolution with Internalized Calibration*) model, developed by the University of Idaho. Evapotranspiration (ET) from irrigated agriculture is synonymous with consumptive use. The consumptive irrigation requirement (CIR) is a measure of the irrigation water, exclusive of within-season effective rainfall, necessary to meet the consumptive use requirement of a crop. A detailed explanation of these data can be found at <http://idwr.idaho.gov/GIS/mapping-evapotranspiration>

JEROME ID 83338-5078

RE: RENTAL OF WATER FROM THE WATER SUPPLY BANK, AGREEMENTS 730, 737, 738, & 743 FROM WATER RIGHT NO(S). 43-2347, 43-2413 & 43-13448

Dear Renter:

Please find enclosed a receipt in the amount of **\$19,425.76** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of a total of 1,088.4 acre-feet of water during years 2023. Upon receipt of these fully executed agreements, you are authorized to divert water in compliance with the conditions of water use described in the agreement. There was an error in the total requested for payment, which should have been \$19,414.76. The overage of \$11.00 will be applied to Rental Agreement 743 for year 2024. Please see the breakdown in payments, below.

For rental agreement 730, a rental fee of **\$18,791.00** per year was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 817 acre-feet. Pursuant to the Water Supply Bank Rules, 90% or \$16,911.90 of the rental fee will be paid to the lessor(s) and 10% or \$1,879.10 will be retained by the Department to offset administrative costs for **2023**.

For rental agreement 737, A rental fee of **\$103.96** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 45.2 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$103.96 for **2023**.

For rental agreement 738, A rental fee of **\$108.56** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 47.2 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$108.56 for **2023**.

For rental agreement 743, A rental fee of **\$411.24** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 178.8 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$411.24 for **2023**. **The overage paid of \$11.00 will be applied to 2024 administrative fee for this agreement.**

If you have questions regarding this matter, please contact me at 287-4936.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Condon', with a stylized flourish at the end.

RE: REQUEST FOR RETURN OF SIGNED RENTAL AGREEMENTS 730, 737, 738 & 743 AND PAYMENT FOR WATER RIGHT NO(S). 43-2347, 43-2413 & 43-13448

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The **Department of Water Resources ("Department")** mailed a **Water Supply Bank Rental Agreement ("Agreement")** for your review and signature on **April 20, 2023**. The signed agreements and annual rental fee has not been returned to the Department. Any use associated with your proposed rental request before it has been executed is considered unauthorized and, if occurring, will be subject to any necessary enforcement action.

For rental agreement 730, a rental fee of **\$18,791.00** per year was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 817 acre-feet. Pursuant to the Water Supply Bank Rules, 90% or \$16,911.90 of the rental fee will be paid to the lessor(s) and 10% or \$1,879.10 will be retained by the Department to offset administrative costs for **2023**.

For rental agreement 737, A rental fee of **\$103.96** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 45.2 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$103.96 for **2023**

For rental agreement 738, A rental fee of **\$108.56** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 47.2 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$108.56 for **2023**

For rental agreement 743, A rental fee of **\$411.24** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 179 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$411.24 for **2023**

An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

June 26, 2023

Re: Proposed Rental Agreements WR# 43-2347, etc.

Pg 2

Please send a check for \$19,425.76 for 2023 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Condon', written over a horizontal line.

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 43-2347, 43-2413 & 43-13448, AGREEMENTS 730, 737, 738 & 743**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

For rental agreement 730, a rental fee of **\$18,791.00** per year was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 817 acre-feet. Pursuant to the Water Supply Bank Rules, 90% or \$16,911.90 of the rental fee will be paid to the lessor(s) and 10% or \$1,879.10 will be retained by the Department to offset administrative costs for **2023**.

For rental agreement 737, A rental fee of **\$103.96** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 45.2 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$103.96 for **2023**.

For rental agreement 738, A rental fee of **\$108.56** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 47.2 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$108.56 for **2023**.

For rental agreement 743, A rental fee of **\$411.24** was calculated based on the current rental rate of \$23.00 per acre-foot times a diversion volume of 179 acre-feet. Since you are both lessor and renter, you are only obligated to pay the 10% administrative fee or \$108.56 for **2023**.

An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$2,502.86 for 2023 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

If you have any questions, please contact this office at bank@idwr.idaho.gov or (208) 287-4800.

Sincerely,

MEMORANDUM FOR RENTAL APP # 2591 AGREEMENT # 738

To: Water Right #43-13448

From: Bob Howe

Date: 03/14/2023

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE:

The completed lease/rental companion applications were received on February 8th, 2023 (idling 92.4 AF and 23.1 Acres for lease), then the leased portion was increased and an additional rental for the irrigation of 44.7 acres was received March 15th, 2023. The purposed lease for a portion of water right (WR) 43-13448 would retire the end guns on 6 pivots to idle the irrigation of 67.8 acres. The idled acres would allow 1.18cfs and 271.2 AF to be leased into the Water Supply Bank (WSB) for a five-year term ending December 31st, 2027. The purposed rental is for a portion of the leased right for a five-year term to facilitate a temporary cement mixing facility. Eastern Valley Cattle, LLC (EVC) is the owner of both the lessor and renter and have requested that only administrative fees with apply. The purposed rental requests 0.21cfs and 30.2 AF for industrial use.

AUTHORITY TO FILE:

The lease and rental applications were both signed by William J. Millenkamp, authorizing Greg Sullivan or Brockway Engineering as named representative for East Valley Cattle Company. A business search on the Idaho Secretary of State website found William J. Millenkamp listed as the current registered agent for EVC. IDWR records name Brigham Young University as the current owner of WRs 43-13167, 43-13169, and 43-13171 for irrigation at the rental place of use (POU). All other irrigation and stock water rights appurtenant to the rental POU have EVC listed as the current owners. Parcel data names EVC as the owner of the parcel (RP11S27E100001) the rental POU is located within. There are no concerns regarding the authority to file the rental application.

WATER RIGHT VALIDITY:

The areas of WR 43-13448 currently being leased are idled by the retiring of end guns on two pivots. The 23.1 acres idled purposed for the current lease are the same locations and total area as in the 2020-2022 lease. WR 43-13448 shares a permissible place of use and 4 points of diversion with five other water rights, which are not stacked, but each have stated elements. Aerial imagery confirms that the leased acres were used prior to lease #1193 (2020-2022). Imagery from the term of lease #1193 confirms the areas leased remained idle during those times. There are no concerns regarding the validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS:

The leased water right 43-13448 and the purposed rental both divert ground water within IDWR administrative basin 43 and the Raft River Critical Ground Water Management Area. As both divert ground water from the same regional aquifer there are no injury concerns regarding a temporary change of the point of diversion (POD), such as is the case in for the purposed five-year rental.

ENLARGEMENT OF USE:

WR 43-13448 is part of a PPU owned by EVC, in which the water rights are not stacked and no water rights other than those owned by the Lessor and appurtenant to the PPU overlaps the idled acres. The leased portion of WR 43-13448 was calculated to be proportionate to the idled acres, to address any enlargement concerns.

The rental POU and POD have several overlapping water rights. All water rights sharing the rental POD are owned by EVC and have stated rates and volumes. The renter stated in section 4.B. of the rental application that flowmeters are installed on the wells and the watermaster will inspect the water

measurement devices. The leased water and the rental use proposed by this application required change in nature of use (NOU) analysis.

The representative provided calculations to quantify the amount of water needed for the rental. The calculations were reviewed, and I was able to determine that the purposed volume is acceptable. However, as only 0.20cfs of the lease remained available we were not able to rent the full 0.21cfs requested in the application.

LOCAL PUBLIC INTEREST:

Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES:

The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS:

The location for the leased and rental PODs are subject to Water District # 143-the Raft River Ground Water District, IDWR administrative basin #43, and the Raft River Critical Ground Water Management Area. Comment requests will be emailed to the Watermaster and Regional Manager regarding the purposed lease and rental.
