STATEMENT OF COMPLETION

FOR SUBMITTING PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources (Department) considers this form a statement that the permit holder(s) applied water to beneficial use and completed development of a water right to the extent described below. **This form must be accompanied by an examination fee, when necessary, or by a completed Beneficial Use Field Report prepared by a certified water right examiner (CWRE).** Please refer to the instructions and fee schedule for this form. If ownership of the permit has changed, complete a Notice of Change in Water Right Ownership form. If you wish to relinquish your permit because you have not established the authorized water use and are not applying for an extension, please notify the Department in writing.

1. Permit No. 74-16631 Name of Permit Holder(s) Idaho Dept. of Fish & Game Commission

Telephone No. 208-334-3700 Email thomas.bassista@idfg.idaho.gov

Mailing Address P.O. Box 24, 600 S. Walnut City Boise State ID Zip 83707

2. Source of Water Bohannon Creek If Ground Water (well), Date Drilled mo. na / yr. na

Drilling Permit/Tag No. na Drilling Company's Name na

3. Extent of use(s) completed **as authorized by the water right permit**:

Domestic (No. households) _____ Irrigation (No. acres) _____ Stockwater (No. and stock type) _____

Other Fish Propagation - non-consumptive

4. Total diversion rate or volume (storage only) for which proof is submitted 0.8 cfs OR _____ af

If the total developed water use is 5 acres of irrigation or less, is stockwater storage of 14.6 acre-feet or less, or has a diversion rate of less than 0.24 cfs, attach a map of the place of use and point of diversion and photographs showing beneficial use.

5. Describe the diversion and delivery system from the water source to the use (pump, lift, irrigation method, etc.)

Concrete, single-drum fish screen (24" x 12' perforated plate); 10-inch fish bypass pipe from fish screen that provides safe passage for fish entrained in ditch back to Bohannon Creek. Paddle-wheel powered. Drop well. Lockable headgate.

6. Permit condition compliance. Refer to the permit approval conditions and check all the items required, then check "Yes" or "No" to indicate whether the required items were established, submitted, and/or installed:

Required?	Yes	No	(If "Yes", attach required data, evidence of compliance, or evidence of installation)
☐	☐	☑	Ground water level data, pumping information, or other diversion data
☐	☐	☑	Mitigation plan
☑	☑	☐	Lockable controlling works
☐	☐	☑	Measuring device
☑	☑	☐	Fish screen
☐	☐	☐	Other requirements of the water right permit _____
	☐	☑	Reasonably Anticipated Future Needs ("RAFN") Municipal use

If RAFN Municipal use, additional increment of beneficial use developed? ☐ Yes (attach CWRE report) ☐ No

7. Fee Enclosed $100.00 or ☐ CWRE field report attached or ☐ No fee required

See fee schedule on page 3 of the instructions. Proof statements filed without an appropriate fee are incomplete.

8. Person to contact to accompany a Department representative during the field examination of the water system:

Name: Mike Demick Telephone No. 208-756-6022 Email mike.demick@idfg.idaho.gov

Mailing Address 97 Highway 93 North City Salmon State ID Zip 83467

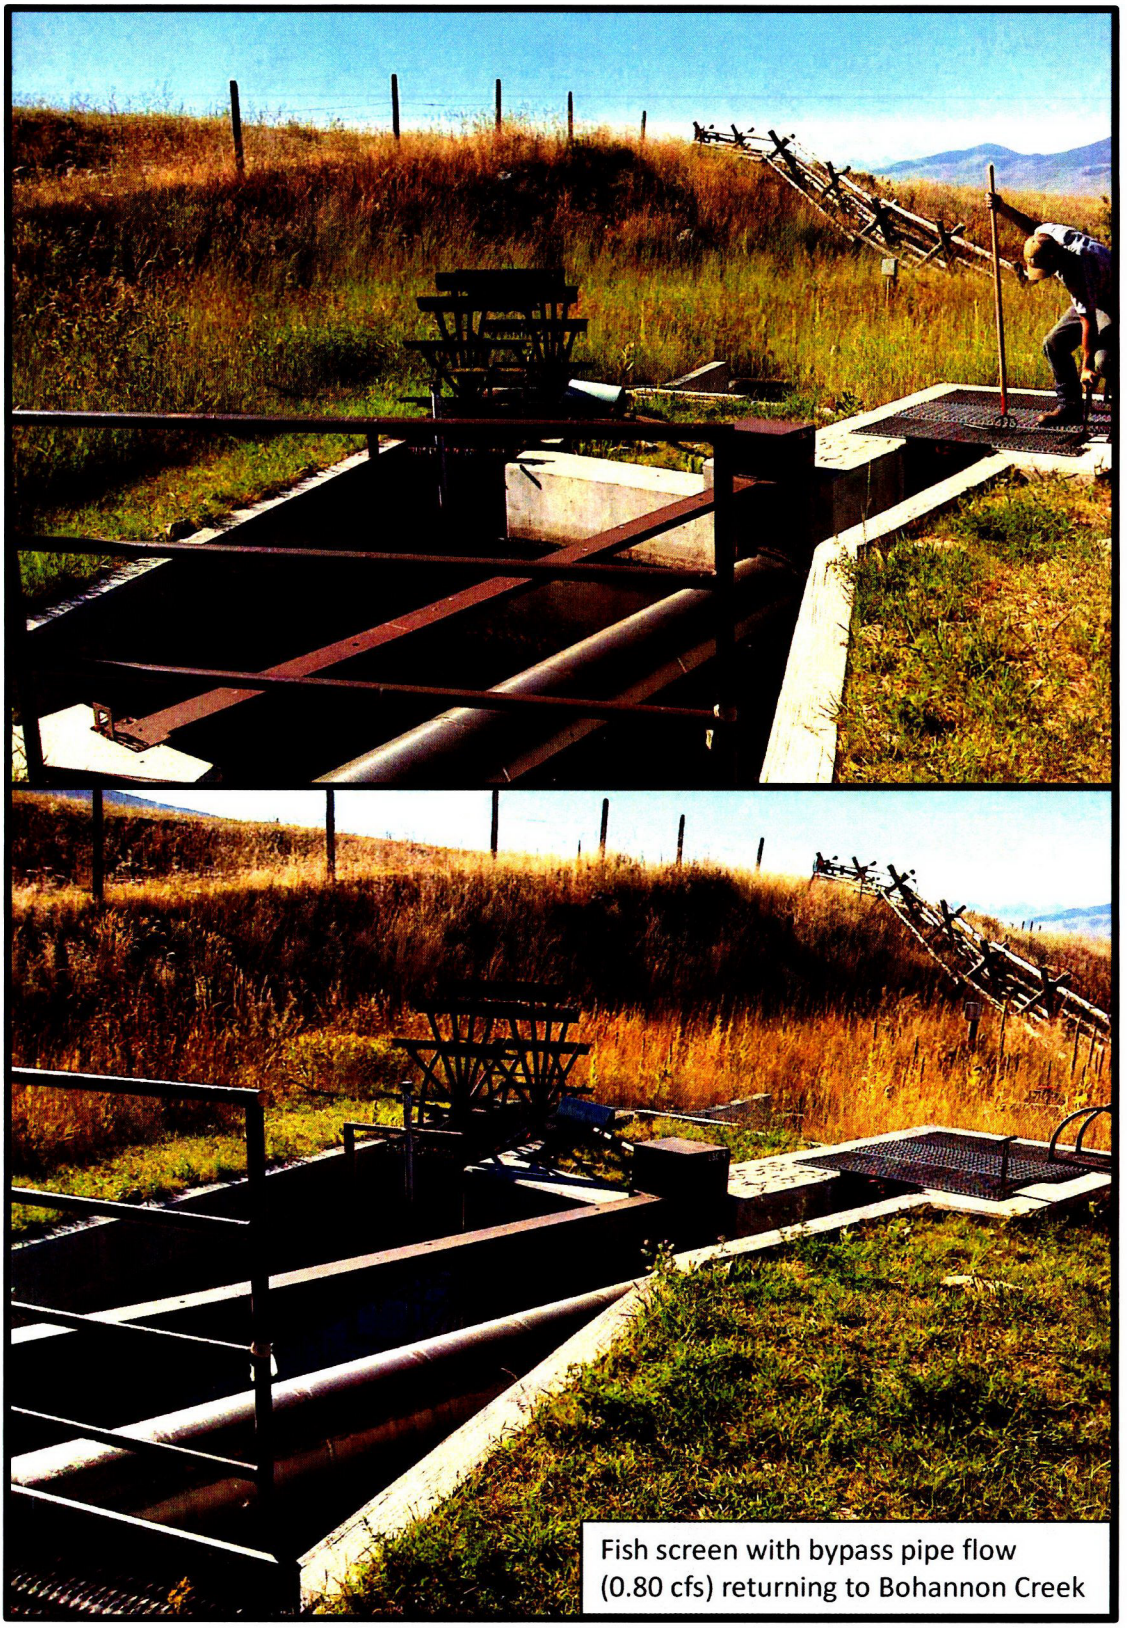

The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted and applied to beneficial use. I understand that any undeveloped portion of the permit is relinquished to the State of Idaho.

SIGNATURE OF PERMIT HOLDER*	PRINTED NAME AND TITLE	DATE

Department of Water Resources

Permit to Appropriate Water

No. 74-16631

Priority: September 05, 2023 **Maximum Diversion Rate:** 0.80 CFS

This is to certify that

STATE OF IDAHO
DEPT OF FISH AND GAME
PO BOX 25
BOISE ID 83707-0025

has applied for a permit to appropriate water from:

Source : BOHANNON CREEK **Tributary:** LEMHI RIVER

and a permit is APPROVED for development of water as follows:

Beneficial Use	Period of Use	Rate of Diversion
FISH PROPAGATION	03/15 to 11/15	0.80 CFS

Location of Point(s) of Diversion
BOHANNON CREEK SE¼ NW¼, Sec. 2, Twp 21N, Rge 23E, B.M. LEMHI County

Place of Use: FISH PROPAGATION

Twp	Rng	Sec	NE				NW				SW				SE			
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE
21N	23E	2								X								

Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before **December 01, 2024.**
2. Subject to all prior water rights.
3. Fish propagation use is for fish protection through the installation of a deflection screen and a bypass pipe to provide passage for fish back to the Bohannon Creek.
4. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 74C.
5. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
6. When notified by the Department or by a watermaster with regulatory authority over this right, the right holder shall report the amount of water diverted in connection with this right. The report shall be submitted in the manner and frequency specified by the Department or the watermaster.
7. Use of water under this right shall be non-consumptive.
8. Water is delivered through the LBC-09 diversion.
9. This right does not grant any right-of-way or easement across the land of another.

State of Idaho
Department of Water Resources

Permit to Appropriate Water

No. 74-16631

This permit is issued pursuant to the provisions of Idaho Code § 42-204.

Signed this 29th day of November, 2023.

   Name connector (check one): ☐ and ☐ or ☐ and/or
   Mailing address P.O. Box 25 City Boise
   State ID ZIP 83707 Email
2. Name of representative, if any Mike Demick - Easement Specialist Phone 208-756-6022
   Mailing address 97 Highway 93 North City Salmon
   State ID ZIP 83467 Email mike.demick@idfg.idaho.gov
   a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
      ☑ Send original correspondence to the applicant and copies to the representative.
   b. ☑ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
      ☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply Bohannon Creek which is a tributary of Lemhi River
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	¼	¼	¼	County	Source	Local name or tag #
21N	23E	2			SE	NW	Lemhi	Bohannon Creek	LBC-09

5. Water will be used for the following purposes:
   Amount .80 (cfs or acre-feet per year) for Fish Propagation purposes from 3/15 to 11/15 (both dates inclusive)
   Amount _____ (cfs or acre-feet per year) for _____ purposes from _____ to _____ (both dates inclusive)
   Amount _____ (cfs or acre-feet per year) for _____ purposes from _____ to _____ (both dates inclusive)
   Amount _____ (cfs or acre-feet per year) for _____ purposes from _____ to _____ (both dates inclusive)
6. Total quantity to be appropriated is (a) .80 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).
7. Proposed diverting works:
   a. Describe type and size of devices used to divert water from the source. Single rotary drum fish screen (24-inch dia. by 12-foot perf. plate), paddle wheel powered, drop box , 10-inch fish bypass pipe to creek, lockable headgate.
   b. Height of storage dam na feet; active reservoir capacity na acre-feet; total reservoir capacity na acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☑ No
   c. Proposed well diameter is na inches; proposed depth of well is na feet.
   d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☑ No
   e. If well is already drilled, when? na; drilling firm na;
      well was drilled for (well owner) na; Drilling Permit No. na.

8. Description of proposed uses (if irrigation only, go to item 9):
   a. Hydropower; show total feet of head and proposed capacity in kW. na
   b. Stockwatering; list number and kind of livestock. na
   c. Municipal; must complete and attach the Municipal Water Right Application Checklist.
   d. Domestic; show number of households na
   e. Other; describe fully. This is a non-consumptive use that enables fish entrained in ditch to return to stream through a fish bypass pipe that runs from the fish screen to the stream.

9. Description of place of use:
   a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
   b. If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
21N	23E	2								H									

Total number of acres to be irrigated: 0

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? Point of Diversion is shared with other water right holder. This is the only right for fish screen.

11. a. Who owns the property at the point of diversion? Eagle Valley Ranch, LLC
    b. Who owns the land to be irrigated or place of use? Eagle Valley Ranch, LLC
    c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: IDFG has a recorded easement for ingress/egress to operate/maintain fish screen/bypass on property.

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. To record a non-consumptive use of water for a fish screen/fish bypass pipe installed and currently operating.

13. Time required for completion of works and application of water to proposed beneficial use is 1 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

RE: Permit No. 74-16631

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Please be advised that Idaho Code § 42-248, requires you or the owner of this water permit to maintain current ownership and address records on file with the Department. Forms to file an assignment of permit and/or a change in the address of the permit owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the enclosed information, please contact me at (208) 497-3784.

Sincerely,

James Cefalo
Eastern Regional Manager

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

> Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:
>
> (a) The petition for reconsideration is disposed of; or
> (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

i. A hearing was held,
ii. The final agency action was taken,
iii. The party seeking review of the order resides, or
iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

CHANGE OF WATER RIGHT TRANSFER NO. 88403

GEORGE and TAMMIE AMBROSE, 9 PROSPECT LN, NORTH FORK, ID 83466-1202 has filed Application No. 88403 for changes to the following water rights within LEMHI County(s): Right No(s). 75-4324; to see a full description of these rights and the proposed transfer, please see https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers. The purpose of the transfer is to change a portion of the above rights as follows:change point of diversion. The source is North Fork Salmon River, but the proposed point of diversion is on the Salmon River in SESE Sec 17 T24N R21E for 0.62 cfs.

For additional information concerning the property location, contact Eastern Region office at (208)525-7161. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Eastern Region, 900 N SKYLINE DR STE A, IDAHO FALLS ID 83402-1718 together with a protest fee of $25.00 for each application on or before 10/10/2023. The protestant must also send a copy of the protest to the applicant.

RE: Applications to Appropriate Water in the Upper Salmon River Basin; 74-16617, 74-16620, 74-16630 and 74-16631; non-consumptive fish propagation.

Dear IDWR:

For additional information on how our proposal for the above-mentioned Water Rights (WR) invokes any local public interest concerns for ESA species recovery, the Idaho Department of Fish and Game (IDFG) submits the following:

The IDFG Anadromous Fish Screen and Habitat Program has been an integral part of improving conditions to support recovery of ESA-listed fish species - Chinook salmon, steelhead, and bull trout in the Upper Salmon Basin. IDFG works collectively with the Upper Salmon River Basin Watershed Technical Team to coordinate and prioritize projects implemented in the basin.

Over the past 60 years, our program has installed over 281 fish screens to prevent ESA-listed fish species from being entrained in irrigation ditches. In order to safely return the fish from the fish screen back to the river or stream, from which they were diverted, a bypass flow is required.

The applications for WR's represents a non-consumptive use. Where the water is diverted at the headgate, travels a short distance downstream to the fish screen (usually less than 100 yards), and is then returned to the river or stream via a bypass pipe. The bypass pipe is designed to transfer the fish back to the river or stream. Without the critical bypass flow the fish would become stranded at the face of the fish screen and would not be reverted to the river. Fish screens and the bypass flows protect irrigators from illegal take of ESA-listed species and provide a benefit to the community by protecting and enhancing ESA-listed species populations for future generations.

If you have any questions or need additional assistance, please contact the Region's Easement Specialist, Mike Demick at 208-756-2271.

Sincerely,

Ryan Hilton
Regional Supervisor

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at: https://idwr.idaho.gov/apps/ExtSearch/WRApplicationResults/. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Subject: Notice of Application Within Wild and Scenic River; Permits: 74-16617, 74-16620, 74-16630, 74-16631

Dear Idaho Water Resource Board, Department of Environmental Quality, and Idaho Department of Fish & Game,

The Idaho Department of Water Resources (IDWR) is providing notice to your organization regarding the above referenced water right application. You can find a complete copy of the application(s) at: https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx. Legal notice of these applications will run in the Recorder Herald on 9/21/2023 & 9/28/2023.

IDWR can finish reviewing an unprotested application as soon as the protest period has past. If your organization desires to formally protest the approval of this application, you may do so after the notice is published by filing a written protest along with a $25.00 filing fee within 10 days after final publication.

Please contact this office if you have any questions regarding the application.

Thank You,

IDAHO DEPARTMENT OF WATER RESOURCES

RE: Applications for Permit Nos. 74-16617, 74-16620, 74-16630, 74-16631

Dear Applicant:

The Department of Water Resources has received your water right applications. Please refer to the numbers referenced above in all future correspondence regarding these applications.

A legal notice of the applications has been prepared and is scheduled for publication in the RECORDER HERALD on 9/21/2023 and 9/28/2023. Protests to these applications may be submitted for a period ending ten (10) days after the second publication.

If the applications are protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the applications are not protested, the Department will process your applications and notify you of any action taken on the applications. If your applications are approved, the Department will send you a copy of the permits.

Please contact this office if you have any questions regarding the applications.

Sincerely,

Christina Henman

RE: Applications for Permit Nos. 74-16617, 74-16620, 74-16630, 74-16631

Dear Applicant:

The Idaho Department of Water Resources (IDWR) has received your applications to establish a new use of water in the upper Salmon River Basin. Idaho Code 42-203A(5) requires IDWR to determine whether each water right application satisfies all the criteria necessary for appropriating water in Idaho. One statutory criterion requires IDWR to determine the total public interest relative to the proposed water use. Idaho Code 42-202B(3) defines the local public interest as "the interests that the people in the area directly affected by a proposed water use have in the effects of such use on the public resources." The local public interest has many facets, including the effects of a proposed water use on aquatic habitat for fish and wildlife resources.

The upper Salmon River basin is home to stocks of chinook salmon, sockeye salmon, steelhead trout and bull trout, all of which are listed as threatened or endangered under the Endangered Species Act (ESA). Since the early 1990s, locate water users, conservation districts, and federal and state agencies have cooperated to implement conservation measures intended to protect and restore habitat for ESA-listed species in the upper Salmon River watershed. For example, at the request of local water users the Idaho Legislature directed the Idaho Water Resource Board (IWRB) to establish a minimum stream flow in the lower Lemhi River for fish passage. The minimum stream flow is maintained through a water supply bank and temporary or permanent acquisition of additional water supplies by willing buyers from willing sellers.

Pursuant to the Snake River Water Rights Agreement of 2004, Idaho has been developing a long term conservation plan for the benefit of ESA-listed species in the Lemhi River. Improving condition in flow-limited river reaches and streams is a fundamental component of the Lemhi plan. In addition to IDWR, numerous state agencies, including the Office of Species Conservation, Idaho Department of Fish and Game, Idaho Department of Environmental Quality, Idaho Soil and Water Conservation Commission and the Idaho Department of Lands, have committed and continue to commit significant resources toward this objective under the following programs:

- Columbia Basin Water Transactions Program
- National Marine Fisheries Service Pacific Costal Salmon Recovery Fund

SCANNED
SEP 13 2023

- U.S. Fish & Wildlife Service Aquatic Species Conservation Fund
- Salmon and Clearwater River Basins Habitat Fund
- 2008 Columbia Basin Fish Accords

A myriad of habitat restoration projects are being constructed / implemented another parts of the upper Salmon River basin. These projects have been coordinated with the local communities and water users through the Upper Salmon River Basin Watershed Program and predecessor programs, including the model watersheds. Furthermore, the Snake River Water Rights Agreement of 2004 contemplates the development of additional conservation plans for other upper Salmon River basin watersheds. Accordingly, the Comprehensive State Water Plan revised by the IWRB contains policies for the Salmon River basin that focus on the protection and restoration of instream habitat for ESA-listed species through voluntary participation in conservation programs.

Because of the ESA-listed species recovery efforts in the upper Salmon River basin, IDWR must determine on a case-by-case basis whether it is in the local public interest to authorize proposed water uses that would further deplete flow-limited stream reaches.

Pursuant to Rule 40.04.c o f the Water Appropriation Rules (IDAPA 37.03.08.040.04.c), the applicant has the ultimate burden of persuasion regarding the items that must be evaluated in connection with each water right application. Before proceeding further with your applications, IDWR requests you submit additional information about how your proposals invoke any local public interest concerns for ESA species recovery.

Within 30 days, please submit any additional information you believe IDWR may need to evaluate and determine the local public interest in the water you propose to divert and use. If IDWR has not received a response from you within 30 days, IDWR will assume you have no comment regarding the local public interest, and processing of your applications will resume with the information currently on file. Processing will include public notice and the potential for formal protests by other interested parties. Applications that are not in the local public interest will be denied.

Sincerely,

Christina Henman
Administrative Assistant

NOTICE OF PROPOSED CHANGE OF WATER RIGHT
TRANSFER NO. 88403

GEORGE and TAMMIE AMBROSE, 9 PROSPECT LN, NORTH FORK, ID 83466-1202 has filed Application No. 88403 for changes to the following water rights within LEMHI County(s): Right No(s). 75-4324; to see a full description of these rights and the proposed transfer, please see https://research.idwr.idaho.gov/apps/waterrights/querynewtransfers. The purpose of the transfer is to change a portion of the above rights as follows:change point of diversion. The source is North Fork Salmon River, but the proposed point of diversion is on the Salmon River in SESE Sec 17 T24N R21E for 0.62 cfs.

For additional information concerning the property location, contact Eastern Region office at (208)525-7161. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Eastern Region, 900 N SKYLINE DR STE A, IDAHO FALLS ID 83402-1718 together with a protest fee of $25.00 for each application on or before 10/10/2023. The protestant must also send a copy of the protest to the applicant.

The following application(s) have been filed to appropriate the public waters of the State of Idaho:

This application proposes the diversion and use of water from Wimpey Creek a tributary of the Salmon Wild & Scenic River. The decreed minimum stream flow rights for the federal Wild & Scenic Rivers are subordinate to certain categories of water use and to specific amounts of water use established after the minimum stream flow. The water use proposed in this application will benefit from the subordination provision because it is a non-consumptive use.
