George,

I am currently reviewing your claim to a water right 97-8358 and I was hoping you could clarify some information for me. You claimed a priority date of 1/1/1970, but I noticed your property has a year-built date of 1915. I could help you to amend your claim and claim this date instead, which would give your water right more seniority. Additionally, I was hoping to clarify your well. On our end, it shows a well in the name of Carolyn Wagner on your property. If you could confirm or deny if this is the well you are using, that would be great. I have attached the well driller's report for that well to this email. If it is not, do you happen to have a well driller's report for your well? If you have any questions, reach out anytime.
