Good Morning Alex,

As we discussed on the phone yesterday, I am sending you the attached Amended Notice of Claim for your water right number 97-7717. This amendment removes a number of different legal descriptions for the mistakenly claimed parcels in the Place of Use (POU). Any sections that have been amended by me have been highlighted for you to review. Once you have reviewed the changes, please sign the form and return it to our office at the address below as soon as possible. If I do not receive this amended claim back by December 20, 2023, it is possible that your claim could be recommended as disallowed.

I have also made a note in your recommendation file regarding your diversion that was referred to as a "well spring" in the claim. I have noted that your description most closely describes a groundwater source (well), and does not appear to be a spring based on our conversation.

Please don't hesitate to reach out if you have any questions.

Regards,

Greg Cooksey
