Subject: IDWR Claim Numbers: 97-8913 & 97-7152

Dear Fonda,

I have received your Notice of Claim for a Water Right number 97-8913 on your well, and I am contacting you because I would like to get some clarification on a couple of items from these claims. During my review of these claims, I noticed that the claim indicates that your well location is well off of your property to the southeast, and it appears to be within just a few feet of Snow Creek. I wanted to make sure that this location was accurate, and if it's not we can get that updated very easily.

I have also begun my review of claim number 97-7152 for your spring, and I wanted to make sure that you were aware that the original license includes a maximum annual volume of 1.4 AF; however, your claim only stated that you wanted 1.2 AF. This is certainly acceptable to claim less if you don't want or need the additional volume, but I did want to reach out to make sure that you were aware that the volume is underclaimed.

Please give me a call at the number below at your earliest convenience. If I do not hear back from you by 10/13/2023, I will recommend the claim to the court as-is.

Thank you,

Greg Cooksey
