Attachments: 97-8930 AMENDED CLAIM.pdf

Hi Lisa,

Thanks for getting back to me so quickly. Since you confirmed that the only portion you are irrigating is that ½ acre dry spot, I have prepared an amended claim where I amended the original claim you sent in to only include the irrigation from the river. As I said earlier, we can just claim this as a domestic use rather than “irrigation”, but the domestic use of that river water will include ½ acre of irrigation. The other new claim I prepared for you last month (97-9782) is the domestic use of your well. They will need to be on separate claims since they are different sources of water, but once we get the signed claim (97-9782), signed amended claim (97-8930), the change of ownership, and that map back, I will be able to recommend all of those claims rather quickly. Please include the attached Amended Claim I am including with this e-mail. Once you have reviewed it, sign that and include it with the rest of your mailings. The new claim (97-9782) does have a \$25.00 fee associated with it, but the amended claim has no additional fees. Please don't forget that \$25.00 check made out to IDWR when you send these back.

Thank you,

Greg Cooksey

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Thank you for reaching back out to us.

I have completed the paperwork you sent and looked at the map you emailed. The only portion on the map is the Red area that is mapped out is the dry area we are irrigating. I will put all the documents in the mail today.

Thank you - Lisa

Good morning Lisa,

I am following up with you in regards to the water rights claims 97-8930 & 97-9782 that we spoke about in mid-December of 2023. I do have in my notes that you were going to attempt to contact a previous owner for a potential affidavit, but that you would likely not be able to reach them until January of 2024. I would like to see if there is any progress on that contact. My records indicate that I am still waiting to receive a number of items back from you regarding these claims. These documents include a signed claim for the use of your well (claim 97-9782), your change of ownership paperwork to place your claim into the name of your trust, and the return of the map of your property I sent you for confirmation of the location of irrigation.

If I am remembering correctly, the affidavit from a neighbor would only be needed for your claim of "irrigation" from the East River. If you are only irrigating the dry spot near your barn (less than ½ acre), then we can change the use to Domestic and you would not need to provide any additional evidence.

I would like to be able to wrap this recommendation up as soon as possible. If I do not receive any of those documents returned to me by Feb 2, I will go ahead and recommend the claim as-claimed, which will result in only a partial recommendation. Please let me know if you need me to re-send any documents, or if you have any questions.

Thank you,

Greg Cooksey
