Good morning Mr. Hall,

The Department of Water Resources received your water right claim, no. 96-4198, on March 30, 2022. The claim is active and all filing requirements have been met; however, as this claim is located within Administrative Basin 96, it will not likely be reviewed and recommended by the department for two to three more years. Please be sure to keep your contact information current with us to ensure you receive all future correspondence, and we will reach out to you if we have any questions regarding your water right claim. You will be sent a copy of the preliminary recommendation for your claim for review prior to our submission of that recommendation to the court.

Feel free to contact our office if you have any questions.

Best Regards,

Evan W. Roda

Checking in on the status of my filing on 96-4198 I filled it 2 years ago ruefully and see that there is a final filling date of 5-17 and would like to make sure all requirements are met for my filling
