RE: Clark Fork-Pend Orielle River Basin Adjudication (CFPRBA) Claim No. 97-9566

Dear Claimant:

The Idaho Department of Water Resources has received the Notice of Claim to a Water Right form you submitted for Clark Fork-Pend Orielle River Basin Adjudication (CFPRBA) Claim No. 97-9566. We have completed the preliminary recommendation for your claim, but there are some things you should be made aware of.

First, through our review of the claim, we discovered that the ownership of the place of use claimed (Bonner County parcel RP56N05W014953A) differs from that listed on the claim form. Tax parcel data indicates that water right claim 97-9566 is appurtenant to property currently owned by Kenneth and Troy Barrett (the signatories of the submitted claim). To ensure a smooth transfer of ownership for the claim or water right in the future, it is typically best for the owner of the claim to match that of the place of use. If there is a discrepancy in the ownership of your claim verses that of the property, it can be corrected through the submission of an Amended Notice of Claim or a Notice of Change in Water Right Ownership. For your convenience, I have enclosed an Amended Notice of Claim that has been partially completed using the information from your original claim, but with the contact information left blank. If you wish to amend the ownership of your claim to your individual names, please review/complete the claimant contact information in Section 1, then sign and return the form to the address listed above. Initial any additional changes made.

Second, the Notice of Claim to a Water Right you submitted was for the domestic use of groundwater (well) with a claimed priority date of June 1980. Our initial investigation of the claimed parcel indicates that the primary use of the property is for a cedar processing mill site. The water use for such a facility constitutes a commercial water use that can only be recommended to the Court under § 42-111(1)(b), Idaho Code, which allows for a maximum diversion volume of 2,500 gallons per day. If additional water is needed to fulfill the requirements of the site beyond the quantity recommended for your claim, an Application for Permit should be filed. For your convenience, I have enclosed that form along with filing instructions.

PLEASE NOTE: If you believe there has been an error in the determination of water use at the property, please provide additional evidence reflecting the use of the claimed water source for domestic purposes in a home on site that is independent of the commercial facility, referencing the above claim number with all correspondence. Also, if the enclosed Amended Notice of Claim is not completed and returned, then

SCANNED

the water right claim affecting your property may be decreed by the Court in a name that differs from the property's listed ownership. If the ownership listed on the original claim form is accurate, and you are in agreement with all the elements currently being recommended, then no additional action on your part is needed.

Do not hesitate to contact me if you have any questions. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

A handwritten signature in black ink, appearing to read 'Evan W. Roda', is written over a large, light blue, semi-transparent 'COPY' watermark.
