Good morning Dylan,

Thank you for the update. Sorry I didn't respond to your previous August 9th email with the map; I was working in Reno for a couple weeks and had some significant computer issues necessitating a replacement. In Response to that email, the supplied map should be sufficient to delineate out the irrigated acres and POD locations. I will do some work on that and let you know if I run into any questions. As far as the Director's Reports (DR), yes, if we can't get these dialed in and finished up ahead of the DR filing for Part 1 of Basin 97, we can just submit them with Part 2.

Thanks,

~Evan

CAUTION: This email originated outside the State of Idaho network. Verify links and attachments BEFORE you click or open, even if you recognize and/or trust the sender. Contact your agency service desk with any concerns.

Hi Evan

I thought I'd quickly check in and let you know that we are working diligently on this project. However, it will likely take a few more weeks to complete. You had mentioned on the phone that we could shift these claims to Part 2 of the directors report. Is that still a possibility? Thanks so much.

Hi Evan

Please find attached. Is this sufficient information for your POD/POU concerns? If so, I can find similar information for the other water rights. Thanks so much.
