Hi Randi,

Thanks for calling this afternoon to touch base about the claim on your well. I looked in our system and it appears it was recommended mostly as claimed. The original claim form had a priority date of July 12, 2021 but the recommendation suggests a priority date of July 20, 2021 as that is the well completion date listed on the well driller's report. Other than that your claim is being recommended as it was claimed.

The purpose of the Notice of Error package you received in the mail is to give you the opportunity to proofread IDWR's recommendation and let us know if there are any errors that need to be corrected. If you are satisfied with the recommendation as is you can either send the Notice of Error form back letting us know you are satisfied OR you can do nothing and IDWR will assume you are ok with the recommendation and will send it to the court as is.

If you have any other questions please feel free to call or email me.

Thank you,

Michael Thompson
