Subject: RE: PRBA Certificate of Compliance

Good afternoon Brad,

Thank you for contacting us and sending over the pictures of your water source. As Lacey discussed in her email below, claim no. 87-7215 was filed based upon a previously issued water right license, and the department will not be able to recommend the source differently from that license.

Water right no. 87-7215 was issued to Thomas K. Anderson on February 24, 2003, for the diversion/storage/use of water from a spring. IDWR staff conducted a beneficial use examination of the diversion works and water use on August 25, 2000, and confirmed the source as a spring. Documentation and photographs of the diversion works and source utilized under this water right are also consistent with a spring diversion.

If you have additional questions or would like to discuss this further, please feel free to contact me anytime.

Best Regards,

Evan
