4. If the water rights and/or adjudication claims were split, how did the division occur?
- ☒ The water rights or claims were divided as specifically identified in a deed, contract, or other conveyance document.
- ☐ The water rights or claims were divided proportionately based on the portion of their place(s) of use acquired by the new owner.

5. Date you acquired the water rights and/or claims listed above: January 21, 2022

6. Do you own the land identified as the water right place of use? Yes ☐ No ☒
- ☐ If no, attach evidence that written notice of the change of water right ownership has been delivered to the landowner of record.

7. This form must be signed and submitted with the following **REQUIRED** items:

- ☒ A copy of the conveyance document – warranty deed, quitclaim deed, court decree, contract of sale, etc. The conveyance document must include a legal description of the property or description of the water right(s) if no land is conveyed.
- ☒ Plat map, survey map or aerial photograph which clearly shows the place of use and point of diversion for each water right and/or claim listed above (if necessary to clarify division of water rights or complex property descriptions).
- ☒ Filing fee (see instructions for further explanation):
- ☐ \$25 per *undivided* water right.
 - ☐ \$100 per *split* water right.
 - ☐ No fee is required for pending adjudication claims.
- ☐ If water right(s) are leased to the Water Supply Bank AND there are multiple owners, a Lessor Designation form is required.
- ☐ If water right(s) are leased to the Water Supply Bank, the individual owner or designated lessor must complete, sign and submit an IRS Form W-9.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
**INSTRUCTIONS FOR FILING A
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP**

This form has been prepared to assist all claimants and owners of water rights to comply with the requirements of Idaho Code §§ 42-248 and 42-1409(6). All persons owning or claiming ownership of a water right or claim are required to provide notice to the Department of Water Resources (IDWR) of any change in ownership of any part of the water right or claim or of any change in the owner's mailing address within 120 days of the change. Forms to report ownership changes and/or to update an address are available on IDWR's website at www.idwr.idaho.gov/forms/water-rights.html. In addition, all new owners of water rights within a pending general adjudication area must inquire whether a notice of claim has been filed and, if not, shall file a notice of claim if necessary.

A notice is required for changes in ownership from one individual to another, from an individual to a business entity (even if the business is owned by the individual), or from one business entity to another (even if both businesses are owned by the same individual). Adding or removing a name is considered an ownership change which requires the submission of evidence to support the change and the filing fee.

Separate brochures describing the adjudication of water rights and the ownership change notice requirement are available from IDWR. Please contact your nearest IDWR office if you would like more information or need help completing this form. A list of IDWR offices is on page 2 of these instructions, or you can call 1-800-451-4129. Water right information can be found on the IDWR's website using the [Water Right and Adjudication Search](#).

Please note:

- Unlike licensed or decreed water rights, which are real property, water right permits, applications for new water rights, and applications to transfer existing water rights are considered the personal property of the permit holders/applicants. Permit holders and applicants must assign their interest in a permit and/or application to the new owner. Assignment forms are available on the IDWR's website at www.idwr.idaho.gov/forms/water-rights.html, or from any IDWR office. The fee for an Assignment of Permit is \$25. There is no charge for an Assignment of Application for Permit or Application for Transfer.
- If you want to change or add a point of diversion, place of use, season of use, or purpose of use of a water right, you must file an Application for Transfer. The ownership of a water right can also be updated through the transfer process.
- The combined portions of a divided ("split") water right cannot exceed the total flow rate, volume, or period of use of the original right.
- IDWR has no jurisdiction concerning easements, rights-of-way, and zoning matters. The buyer and seller must make these provisions where necessary.
- Any action by IDWR updating the ownership of a water right in IDWR's records is not a determination of water right ownership. Water right ownership disputes arising from a notice of change in water right ownership must be resolved in a water rights adjudication or in an action to quiet title.

LINE INSTRUCTIONS:

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). You may have purchased only a portion of the water right(s) held by the seller. If so, the water right(s) held by the seller may need to be divided ("split") to provide you your share of each right. Mark the box "Yes" if a division of the water right is required.

If you receive water from a municipal provider, an irrigation district or other water delivery organization, and the water rights are held by the organization, please do not use this form to record a change. Please contact the water delivery organization to determine if any action is necessary.

If you or the seller believes there are water rights for the property but you do not know the numbers, you may contact IDWR for assistance in identifying the water rights for the property in question. If adjudication claims for the rights are required and have not been filed, IDWR will so advise you.

2. Fill in the name of the current water right holder/claimant.
3. Fill in each name as listed on the conveyance document and complete the current contact information. For water rights, IDWR will update the ownership to the individual(s)/entities listed on the conveyance document. For active adjudication claims, IDWR will update the claimant information to match the conveyance document unless the new claimant provides good cause for the variance.
4. You may have acquired only a portion of the water right(s) held by the seller. If you did not acquire the entire water right/property, please check the appropriate box. Water rights are often conveyed as an appurtenance to the land where they are used, and the conveyance document for the land often does not have specific language regarding the water right. Please read your deed or other conveyance document carefully to be sure. When the conveyance document does not specifically address water rights, it will be assumed that the water rights are to be split proportionate to the amount of land acquired.

Jay Mazalewski, PE
2095 N. 1000 W.
Driggs, ID 83422

Dear Mr. Mazalewski:

In January of 2022, The Nature Conservancy ("TNC") purchased approximately 1,000 acres of land, located in and around Driggs, ID, from BFF Holdings, Inc. and TLFF Holdings, Inc. Included in the sale were certain enumerated water rights. *See*, enclosed Exhibit B from the grant deed which lists the water rights included in the sale. Of note only a portion of Water Right 22-13810 was grant to TNC. The remainder of the water under this right was reserved by TLFF Holdings, Inc. and later granted to the City of Driggs as part of the land sale dated July, 2022 recorded in Instrument #277012 Teton County, Idaho. TNC is now in the process of updating the ownership records on file with the Idaho Department of Water Resources, such that TNC is accurately identified as the owner of the enumerated water rights, as well as adjusting the point of diversion and place of use to align with properties purchased by TNC. *See*, enclosed map.

In the event that an entity seeks to file a "Notice of Change in Water Right Ownership" for the purpose of updating the Idaho Department of Water Resources records but does not own the land identified with the water right, the law requires the entity to provide notice to the landowner of record. *See*, Idaho Code 42-248(6). This letter, and associated enclosures, serve as notice that TNC has provided you with written notice of the change of water right ownership, and thus complied with the requirements of Idaho Code 42-248(6).

Please contact me with any questions.

Best,

A handwritten signature in black ink, appearing to read "Neil Crescenti", written over a faint circular watermark.

RE: Change in Ownership Water Right No. 22-13810 (previously split into 22-13810-Driggs Acquisition LLC and 22-14466-Nature Conservancy)

Dear Sir/Madam:

The Department of Water Resources acknowledges receipt of your Notice of Change in Water Right Ownership on July 1, 2024, for the above-mentioned water rights. The Notice is being returned because the ownership change was complete on June 9, 2022, when the application was previously submitted, proof report attached.

The department acknowledges that a filing fee of \$100.00 was paid under receipt number E050199, however that receipt is being applied to the transfer filed for 22-13337, therefore it is not being refunded.

Please note that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov.

Please feel free to contact the Department if you have any questions.

Sincerely,

Jonie Bailly
