10. Do you own the property listed above as place of use? Yes

If your answer is no, describe in remarks below the authority you have to claim this water right.

11. Other Water Rights Used:

Prior water right 96-8983 was assigned a right to another location and has been using my POD under water right 96-9812 under false water right and claim of use. Upon drilling a well on community property the association of record continued using water right

12. Remarks:

Priority Date Explanation:

Well originally drilled by David Marx. A memorandum to water right file 96-8983 and 96-9812 dated Oct, 25, 2021 From Michele Edl, Re: file review is a matter of record. The well location in question was being used by David Marx prior to a right of use under water right 96-8983. There was a 6 month period where there was a dissolution of association by the state for non-filing, where water right lease agreement filed under memorandum of lease provided to IDWR for applying for water right 96-8983, without an original lease agreement for said memorandum on file or of county record, was not transferred to successors nor assigns, rendering lease agreement void. Also note Legal location of well was incorrect and based on those facts I am filing as first in time, first in right due to beneficial use of well at POD, as well drillers report on record is for previous owner, and the well runs with the land. I am reclaiming my water right of beneficial use, and first priority and reject all other claims to my right.
