RE: Application for Permit No. 96-17003

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the BONNER COUNTY DAILY BEE on 6/20/2024 and 6/27/2024. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Micki Bowman
Administrative Assistant

Bowman, Micki

Subject: Request for Comments for Water Right 96-17003
Attachments: 96-17003 Application for Permit.pdf

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced Water Right Permit application. You can find copies of the application at: <https://research.idwr.idaho.gov/apps/waterrights/wrajsearch/wradjsearch.aspx>

This office can publish notice of the application as soon as the initial review is completed; therefore, your prompt response to this request is appreciated. If your agency desires to formally protest the approval of the application(s), you may do so after the notice is published by filing a written protest along with a \$25.00 filing fee within 10 days after final publication. **The deadline for comments on the applications is July 8, 2024.**

Please contact the Northern Region Office at (208) 762-2800 if you have any questions regarding the Permit application.

Subject: IDWR - online filed app for permit 96-17003
Attachments: Original filing 96-17003 - for reference only do not return to IDWR..pdf; AMENDED Application For Permit 96-17003.pdf; Application-Permit-License process notes.pdf

Mr. Rich Carvalho,
Good morning.

I am requesting a courtesy response to this correspondence - Thank you!

IDWR is in receipt of an application for water permit Rich Carvalho; It's been assigned No. 96-17003. Following my review of your application I have identified discrepancies that shall reduce your intended water usage to what the department can recommend for licensing if not corrected prior to running for the advertisement period and/or result in a voiding of the application at time of permit approval.

In order to streamline an amendment process, I've attached documents that will assist you in evaluating changes required to make your application 'accurate' for filing purposes. Please reference the YELLOW highlighted portions of the Amended PDF document for changes I recommend and give me a call to discuss prior to resubmitting to IDWR.

I recommend amending your application as follows:

- Review the 2-page amended application for permit document
 - Print 2 pages – you will note my recommended changes have been made & highlighted in yellow to include the **need for new signature on PG2**.
 - Step 3 – Source applied for was Groundwater, but as you indicated you draft water from the Pend Oreille River, which a tributary of the Columbia River.
 - Step 4 – I changed the source & tributary in this question as well. If your filing had moved forward with the groundwater source as originally filed, it would have been voided at time of permit approval based on incorrect source data. Changing to the surface water sources is appropriate for your filing.
 - Step 5 – you will note I have increased the diversion rate for irrigation to reflect 0.03 cfs. This is based on department standards of up to 0.03 cfs for up to an acre of irrigation. The season of use has also been revised to reflect the department standard range for your area of the county. I understand you can't water until the Albeni Dam holds water, but 4/1 to 10/31 is the standard I recommend applying for.
 - Step 6 – Total quantity changed to reflect sum of 0.03 cfs in step 5.
 - Signature block.
 - Reference the copy of your initial filing, but please do not send this PDF back to the department.
 - I will marry up your amended documents with the support documents initial filed with to make a complete application packet.

Following your review, let me know if you have any questions or concerns.

Once satisfied with corrections you may do the following to re-submit:

1. If able, **please scan and email the SIGNED corrected forms, as a PDF document**, to the email address listed below (**not my personal email**)

file@idwr.idaho.gov

Alternately, you may elect to mail the amended version back to the department using the mailing address below C/O Luke Bates or hand deliver if in the local area.

As of the date of this email, **please respond within 14 Days, No Later Than 19 June 2024** and/or respond with explanation why more time is required to submit revisions. We can discuss by phone which changes to the application you would prefer to pursue. I appreciate your diligence in working on these corrections and am here to assist you with any questions.

If IDWR doesn't receive a complete amended application within 30 days, I will process your filing as it was originally received.

Please do give me a call if you've any questions and we can discuss the "why" of the changes recommended. I recommend carbon copying me on the email you send to the state office file@idwr.idaho.gov

Thank you Sir,
Luke Bates
