From: William Meyers, Owner/Member, the Inn of Priest Lake
5310 Dickensheet Road, Coolin, Idaho 83821

Ref: Form 202, Application for Permit, Public Waters

Dear Sir,

The form doesn't seem applicable to our use of well water so have added this additional information.

The Property address: The Inn at Priest Lake, 5310 Dickensheet Rd, Coolin, ID 83821
Owners Mailing Address: William Meyers, 1130 Montezuma Rd, Colorado Spgs, CO 89020
Cell or text: 719-210-4439
Email: WM170@Outlook.com or BillinColorado@earthlink.net

Our property consists of:

1. Motel with 24 guest rooms plus a manager's apartment.
2. 12 RV sites
3. 5 store fronts in adjacent building

There are two wells on this 6 acre property located in the center of Coolin, ID, one is probably **70 years old** and was in existence with the previous house on the property before the motel was built around 1995.

The **2nd well** was most likely constructed **about 1995**.

We don't know who drilled the wells but have been in use well before we purchased the motel in 2016.

Business is entirely seasonal, peak season estimate, with year-round average:

Motel 25 rooms = 2,500 gal/day, Year-round occupancy approx. 30% = 750 gal/day average

RV sites = 600 gal/day x 90 days peak season, closed off season = 148 gal/day average

Store fronts = 800 gal/day, = 800 gal/day average

Average year around taking into account peak season and off season: 1,698 gal day average

Our Peak Season is July and first 3 weeks of August, shoulder season Memorial Day to Labor Day. Off season is October through May.

Peak is 2,500 + 600 + 800 = 3,900, but year-round average could be as high as 1,698.

Signed,

William A. Meyers

Mr. William Meyers,

Good afternoon. IDWR Northern Regional Office has received your application for permit related to The Inn at Priest Lake along with the \$100.00 application fee (receipt No. N045013).

Upon initial review the application form is considered incomplete, as several questions do not include information that is required for database entry and permit processing. No worries, I'm here to assist you in developing a complete application for submission to get the ball moving forward. Toward that end, I've reviewed the filing for content and developed a DRAFT amended application form; please note the form is on our Department's updated application form so may look a little different. I've data populated information pertinent to the filing, and recommend we discuss the form by phone to ensure it meets your intent to file prior to finalizing the documents for re-submission.

- I'm interested in discussing the 2ea groundwater well pumping capacity. The original filing fee covers diversion rate up to 0.20 cfs = 90 gpm. I believe this may be adequate for what the two well pumps produce but want to make sure prior to recommending the draft for submission.
- Map product – you will see the parcel highlighted – this is the Place of Use (POU) is the entire parcel that serves for all commercial uses and irrigation throughout the property. The 2ea green dots associate with the 2 wells, which likely are not located where I have them on the map – this is a general location and the legal descriptions on step No.4 of the filing are what is important. The map location will cover any part of the parcel as it's the same legal description. I'd be happy to update the map if you prefer with some guidance from you for placement of the green dots.
- I've assigned the department standard rate for up to 5 acres of irrigation = $0.03 \text{ cfs per acre} \times 5.0 \text{ ac} = 0.15 \text{ cfs}$ in step No.5. I've assigned 0.20 cfs for commercial use in step No.5. In step No.6 I've assigned 0.20 cfs as the TOTAL diversion rate which aligns with the \$100.00 application fee already paid. You will want to change this value in step No.6 if the two wells pump greater than 90 gpm. If they pump less when combined, we can keep the 0.20 cfs.
- Once we've had a chance to discuss and finalize the amendment you may submit signed documents and map page as a PDF to IDWR's electronic filing program at

FILE@IDWR.IDAHO.GOV C/O Luke Bates at Northern. Please note this isn't my work email account and I recommend carbon copying me in your remission of the amended application.

Please do give me a call at your earliest convenience but within the work week to discuss; I will be out of office from the 7th – 22nd October on block vacation.

Thank you Sir,
