Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before **April 01, 2024**.
2. Subject to all prior water rights.
3. To mitigate for the depletion of water resulting from the use of water under this right and to prevent injury to senior water right holders, the right holder shall cease diverting and using water as authorized by the following water rights for the purposes and amounts specified below. Moreover, the official record for the following water right will be changed to show that diversion and use of water is not authorized because the rights, or portion thereof, are being dedicated to mitigation by non-use. The mitigating right may also include a condition stating that the mitigation by non-use is for the benefit of this right.

Permit to Appropriate Water
No. 13-8043

Right No.	Use Changed to Mitigation by Non-Use	Mitigation Rate (cfs)	Mitigation Volume (AF)	Mitigation Acres
13-4225	Irrigation	0.02	2.4	1.0

The land that will no longer be irrigated under this right is located within the NENW, Section 22, Township 14S, Range 22E, B.M. If the specified mitigation right, or portion thereof, is sold, transferred, leased, used on any place of use, or is not deliverable due to a shortage of water or a priority call, then the amount of water authorized for diversion under this right approval shall be reduced by the same proportion as the reduction to the mitigation rights.

4. This right authorizes a total annual storage volume of 1.1 acre-feet, 0.7 acre-feet to be used for the initial filling or carryover storage of the recreation pond and 0.4 acre-feet for the replacement of losses caused by evaporation.
5. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 13N.
6. The right holder shall maintain a measuring device and lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion(s).

This permit is issued pursuant to the provisions of Idaho Code § 42-204.
