Attachments: LCSC Well Reports.pdf

Rob,

In October 2022, you notified the parties to these contested cases that LCSC Enterprises LLC was working on drilling monitoring wells to conduct pump tests at the proposed points of diversion. According to our records, the monitoring wells were drilled in April 2024. Copies of the well driller's reports are attached. When you get a moment, can you provide an update on these contested cases? Has LCSC been able to complete the pump tests? If so, is LCSC prepared to move forward with a pre-hearing conference?

James
