All:

I wanted to provide everyone with an update on the protested LCSC transfer applications. LCSC is the process of trying to schedule drilling a monitoring well in order to conduct further hydrologic tests of the area where the wells are proposed to be located. Given supply chain and scheduling issues, it has been difficult to pinpoint when the work will be done. Once we have the work scope finalized and scheduled with a well driver, I will let you know, but we hope to have the work done during this upcoming non-irrigation season.

Thanks,

Robert L. Harris
