Tyler,

Thank you for taking the time to speak with me this morning. As we discussed, JK Merrill & Sons Inc. has filed an application to move water right 29-7754 from its original place of use to a gravel pit located immediately southwest of the original place of use. During my review of the application, I noticed that Merrill no longer owns the property associated with water right 29-7754. You are listed as the current owner of the property. When you get a chance, can you email me a copy of your deed for that property.

Attached is a report for water right 29-7754 and a copy of the application for transfer filed by Merrill. Once we determine whether the water right was withheld from the conveyance of the land, we can discuss your options moving forward.

James
