Subject: RE: Application for Transfer 87298 - Request for Documents

TJ,

I'm just following up on this email from last month. Were you able to track down the requested documents? If so, you can scan them and attach them in a reply to this email. Please provide the requested documents by March 25, 2024. If you can't demonstrate the authority to change the portion of water right 15-7368 included in the transfer application or can't confirm that MVI shares are appurtenant to the 9-acre proposed place of use, the application for transfer will be denied. Feel free to call if you have any other questions.

James

Subject: Application for Transfer 87298 - Request for Documents

TJ,

Thank you for speaking with me this afternoon. I want to apologize again for the delay in reviewing your transfer application. The agent who was assigned to work on the application should have notified you of the required documents shortly after the application was published in the local paper. As we discussed, there are two things I need before I can complete the transfer approval:

First, I need a copy of the agreement between you and Jason Van Bebber. Feel free to redact any dollar amounts or private information.

Second, I need you to confirm that there are MVI shares associated with the nine acres to be irrigated by the transferred water rights. As I mentioned, because Jason Van Bebber will continue to irrigate the existing place of use for water right 15-7368 with water from Deep Creek Irrigation Company, the transfer can only be approved if the ground water right will be stacked with canal company shares on your property.

I was able to find some information about MVI shares on your property. Attached is a water right license issued to MVI in 1984 for the storage in Devil Creek Reservoir. The right includes a list of the acres served by the right. It includes all of the NWSW and SWSW of Section 32, T14S, R36E. This covers the north half of your property. Also attached is Application for Permit 15-7127 filed by Dale Daniels in 1991. The application states that there were 16 MVI shares on the property at that time. Also attached is the field exam report for water right 15-7127. The field examiner reported that there were 12 MVI shares associated with the property in 2012. Please confirm that the MVI shares are still tied to the property, specifically to the nine acres to be covered with ground water rights.

Please confirm that the MVI shares are still tied to the property, specifically to the nine acres to be covered with ground water rights.

You may attach the agreement and evidence of MVI shares in a response to this email. Feel free to call if you have any questions. I hope we can get the approval drafted and signed shortly after I receive the requested documents.
