

MEMORANDUM

Date: January 11, 2024
To: Transfer 88624
From: Scott Stosich
Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to add a point of diversion to water right 75-15079.

Authority to File:

The applicant is the water right owner on record. The applicant is also the property owner of the current place of use and proposed point of diversion.

Water Right Validity:

The right included in this transfer was decreed in the SRBA in 2008. Review of 2013, 2017 and 2021 aerial photography shows growing vegetation and irrigation. Forfeiture is not an issue.

Injury to Other Water Rights:

Other rights will not be injured by the proposed change. A point of diversion is being added, but the quantity authorized to be diverted will not change as a result of the transfer. The watermaster for water district 75F was contacted and no comment was received.

Enlargement of Use:

The proposed change will not result in enlargement because neither the rate, volume or irrigated acres will increase as a result of the transfer. There are no overlapping water rights on the property.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Effect on Economy the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
