

MEMORANDUM

Date: July 18, 2024
To: Transfer 88989
From: Jake Nebeker
Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to change the point of diversion for water right no. 27-12330. The point of diversion is being moved to the west where the current place of use is located.

Authority to File:

The applicant is the current water right owner of record. Bingham County tax lot data shows the applicant as the landowner at the proposed point of diversion. The applicant has the authority to make the change.

Water Right Validity:

The right included in this transfer was licensed in 1991. This right was leased to the water supply bank from February 2023 to April 2024. The water supply bank lease did not include land that is overlapped by non-irrigated structures and cement. Therefore, this right will be reduced to 3.9 acres. Review of 2017 and 2023 aerial photography shows growing vegetation on the remaining place of use.

Injury to Other Water Rights:

Other rights do not appear to be injured by this proposed change. The point of diversion is simply being moved to a nearby parcel. The water master was notified and did not oppose the approval of this transfer. The transfer was advertised without protest.

Enlargement of Use:

The proposed change does not appear to result in enlargement because neither rate nor volume nor irrigated acreage will increase as a result of the transfer.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
