I talked to my neighbor Michelle Finnigan to get accurate answers to your question. She said that your office authorized us to use water from the River since there has never been a ditch to our property.

When we put in the pump to separate the 2 properties we connected it to the original sprinkler system and added a few sprinkles so we didn't have to water the pasture with well water and then we turned the pasture into lawn and a garden area.

As far as a canal company Michelle said that Bingham water district was getting a small payment from them several years ago but not any more.

Please call if you have any questions
