- I would like to thank IDWR Director Gary Spackman for authorizing IDWR employees to assist me with watermaster services this season. I would also like to thank the IDWR assistants for their help this season. I appreciate all of their hard work. It helped to keep our district running smoothly. I am truly grateful to all that helped out from IDWR this season.
- The total volume (AF) of water delivered to water users in the district was 7,609.62 AF. This number is derived from the amount diverted through measured diversions and an estimate of water diverted by water users that divert less than five acres and do not require measuring devices to be installed. Estimates were calculated based on the acreage of the water right x 3.5 AF.
- Points of diversion that did not have measuring devices installed or water rights out of priority with the Snake River were curtailed. Some diversions were locked. Water users were curtailed if their priority date was junior to the priority date being delivered on the Snake River. Junior water users who leased exchange water from the Tribe for mitigation were permitted to irrigate out of priority with the Snake River. 14 water users leased mitigation water from the Tribe.
- The total expenses for the district were \$18,288.32
- The total number of days I worked was 93 as of November 30<sup>th</sup>, 2022.
- Attached is the spreadsheet with my records of distribution and the Tribal delivery.
