Remarks concerning the "Claim to a Water Right"

To whom it may concern:

In July 2017, I purchased 129 acres of land in Oxford Idaho from Claude R. Richins. I was told it had 17 Meadows shares of Oxford Creek water. The owner nor the water district officers could provide me with any actual documentation, yet every year delivered me 17 shares of meadow water. The previous owner, Claude R. Richins, who purchased the said property in April 1987 also had 17 shares of meadow water delivered. That is 35 years of historical use. But still, no one can legally attest to my right. I therefore present the following documents hopefully to legally prove my water ownership.

1. Oxford original decree, July 1888

James Boyle 65 acres(shares) Plow, 17 acres (shares) Meadow

2. Chain of ownership:

- (1) James Boyles, Patent Recorded February 20, 1883
- (2) James Boyles sells to Ira King Hillman, November 1, 1899
- (3) King George Hillman inherited the land from his grandfather and sells it to, another Ira King Hilman April 10, 1945. .
- (4) Lucy A. Doty confers interest of described land to Ira King Hillman January 14, 1946
- (5) Robert C. Hillman confers interest of described land to Ira King Hillman January 24, 1946
- (6) James W. Hillman confers interest of described land to Ira King Hillman June 20, 1946
- (7) Ira K. Hillman sells to Andrew G. Hunt February 15, 1965
- (8) Andrew G. Hunt sells Jess Elgan described property. October 7, 1975
- (9) Jess Elgan sells to Clair J. Buxton and Florence A. Buxton May 8, 1983
- (10) Buxton estate sells to Claude R. Richins, April 30, 1987
- (11) Claude R. Richins sells to Leonard E. Ward July, 7, 2017

The only mention of the said 17 shares of Meadow water is in the Original 1888 Oxford decree and then when James Boyles sold to Ira King Hillman in 1899. Next mention of water shares was when Andrew Hunt sold to Jess Elgan in 1975. Jess Elgan kept 147 shares of water that were not divided into Plow or Meadow shares, he later sold them to Clair Hatch which Clair Hatch applied for a transfer of water rights to the Department, on June 9, 1983 (transfer No. 2990) received approval on May 7, 1986 In Mr. Hatches application for water right 13-0107 (James Boyle original) he applied to only transfer of the 35 shares of Plow, thus leaving the 17 shares of Meadow on the acreage I own. I have included copies of all referenced documents.

It's my request that the 17 shares of Meadow water that has be used for at least the last 35 years on my described property be legally transferred into my name.

Re: Change in Water Right Ownership: 13-107 (Split into 13-107 and 13-8111)

Dear Water Right Holder(s):

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of a portion of the above referenced water right(s) to you. The Department has modified its records based on the information received and has enclosed a computer-generated report for you.

Your portion of each water right(s) has a specified point of diversion, nature of use and place of use. If you plan to change the authorized point of diversion, nature of use, or place of use, including adding a new point of diversion, you must file an Application for Transfer of Water Right. If you do not plan to change any elements of your water right, then no further action is required at this time.

The portion of the water right retained by the original right holder retains the original water right number. The Department is sending the original right holder a copy of this letter and a computer-generated report showing the changes to the original water right.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department, or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 497-3787.

Sincerely,

Jonie Barg

Mr. Ward,

We have received your Notice of Change in Water Right Ownership. I spent some time this morning reviewing the evidence of ownership. I feel that the documents support your assertion that you own a portion of water right 13-107. I need your help addressing two additional questions.

On May 5, 1983, Jess and Nancy Elgan conveyed the plow land portion of water right 13-107 to Clair Hatch through a Quit Claim Deed. On that same day, Elgan conveyed a parcel of land to Clair and Florence Buxton through a Warranty Deed. The deed to Buxton excluded a roughly 9.5-acre portion of the NWSW of Section 4. The same exclusion carried forward on the deeds from Buxton to Richins and from Richins to you. The attached map shows the excluded area. According to Franklin County parcel records, the excluded acres are currently owned by the Atkin Family Trust. Based on the map you provided, the 17 meadow acres are located immediately downgradient from the canal. If that is the case, part (1.5 acres) of the 17 acres would fall on the Atkin property. Do you have the deed from Elgan to Atkin or their predecessors for the excluded portion of the NWSW of Section 4? If so, did the conveyance withhold the water right? If you can't locate that deed, or if the deed didn't withhold the water right from the conveyance, then 1.5 acres (below the canal) is likely appurtenant to the Atkin Family Trust property.

According to Franklin County parcel records, your property is currently held in the name of Oxford Managed Grazing Ranch LLC. Why not update the ownership for the right match the current property ownership? To do so, we simply need a copy of the deed from you and your wife to Oxford Managed Grazing Ranch LLC.

James

Good Morning,

This is Leonard Ward, just checking that you received the documentation, and my application.

My potential buyers of my property are wondering how long this process usually takes? We need just an idea, not a firm commitment. Also do you see any problems with the application that I need to address. Thank you
Leonard Ward
