This email was forwarded to me last night (10/8/2023) after I spoke to Loyal to see if he had received any communication from your office. Evidently, you were diligent in sending the email, but since ~~it~~ a copy had not been emailed to me, I have been checking my mail for several weeks, expecting a hard copy of the claims ~~and~~ and a request for payment. I apologize for the delay in payment caused by my confusion.

to me

Dear John,

Thanks for your call yesterday. In looking through my emails and checking with Mom, I found this email to us and my Mom said she paid it for **her shares**. (Looks like it came immediately, we paid immediately and we checked it off my list.) This email jogged my memory and as I recall we assumed you must have received the same email. Great news its all in the system and good to go right? You will just want to make the payment when you can.

We trust this will help with your records too. Please let me know if you have any questions or needs. Sorry I had forgotten about that.

Have a wonderful trip back East.

Best,

Loyal
