

# MEMORANDUM

**Date:** June 18, 2024  
**To:** Water rights 36-7052 & 36-12454 file  
**From:** Jim Bitzenburg  
**Re:** Update of '206' shape to Russell and Cheyenne Suchan water rights

---

Today Russ Suchan visited our office and dropped off an updated '206' map for his farm. The shape was updated today and is linked to rights 36-7052 and 36-12454. This shape reflects approximately 508 acres of actual irrigation; the rest of the 520 acres of irrigation authorized under the rights is fallowed because it is being used for mitigation purposes in the Magic Valley Ground Water District.
