Re: Update of '206' shape to Frank Suchan water rights

Today Russ Suchan visited our office and dropped off an updated '206' map for his father's farm. The shape was updated today and is linked to rights 36-7839, 36-2357, 36-2574, 36-7629, & 36-7828. This shape reflects approximately 394 acres of actual irrigation; the rest of the 396 acres of irrigation authorized under the rights is fallowed because it is being used for mitigation purposes in the Magic Valley Ground Water District.
