IDWR/Preston

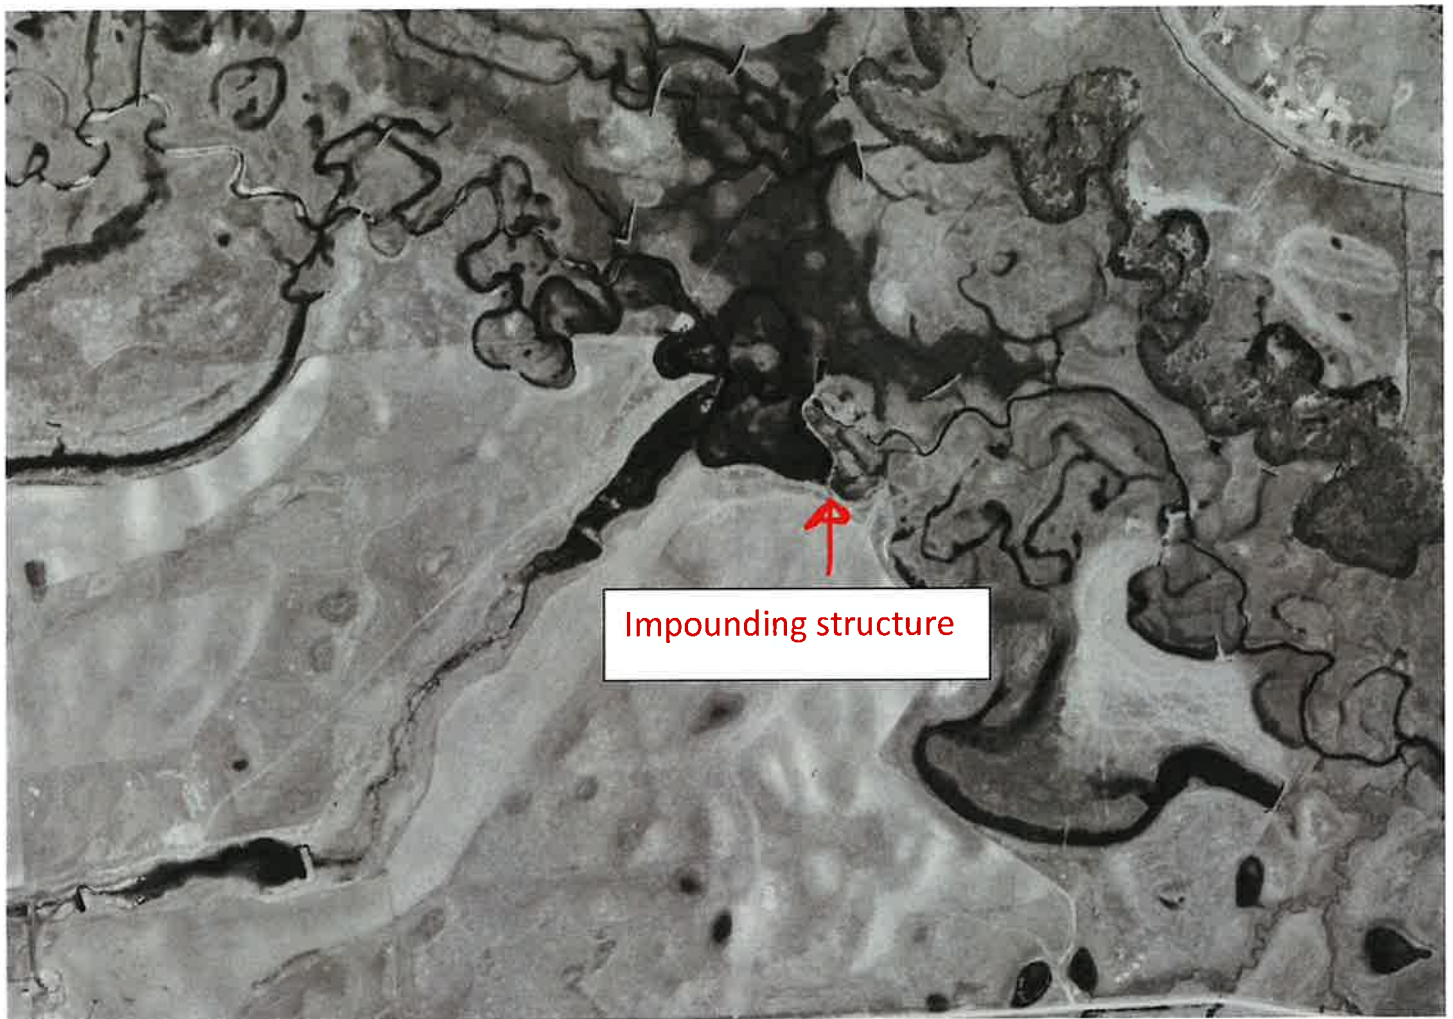

To Whom it may concern

I am the legal executor of the estate of LaThair Petersson. I am also his son. The estate sold 139.08 acres of farm ground to Paul Johnson of P&M Farms of Ovid Idaho. The ground is located 2 miles Southwest of Ovid in the Lanark area. This ground has a water runoff water right associated with the property. This water right was transferred to Paul Johnson with the sale of the property. The requirement to verify that the water right was used the year the water right was applied for and established is the purpose of this letter. My dad prior to installing the electric irrigation pump used a PTO driven pump from a propane converted tractor to drive the pump. This system was used prior to his filing for the run-off water right established in 1962. This system was used several years prior to the electric pump. It was quite a big deal to get the tractor in the where it needed to be to pump the water. Based on the information we can assure the water Adjudication board that the water was used the year to water right the was applied for and established along with previous years. He used the water every year from the time he pumped with the tractor PTO pump through all the years following installation of the eclectic pump.

Monte Peterson

10-20-23

Aerial image from 1966, shows the check dam where we currently pump out of. Structure is visible in 1966 imagery but not in 1953 imagery, therefore structure and water right established between the two years on the claimed year of 1962.

Dear Paul B Johnson:

You're our number one priority and we're glad to help with anything you need for managing your account. Enclosed is the information you requested.

Access your account anytime online or on our mobile app. Here are some other features you might find useful:

- Sign up for text and email alerts
- Access energy usage insights, calculators and savings tips
- Report and track outages
- Enroll in paperless billing and Auto Pay

We're always here for you and ready to help. Please visit our website and select "Contact Us" or call us at 1-888-221-7070. A specialist from our customer care team will be happy to assist you.

Thank you for being our customer.

Sincerely,

Rocky Mountain Power
