RE: Application for Permit No. 65-24264

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the STAR NEWS on 12/7/2023 and 12/14/2023. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Lynne Evans
Administrative Assistant I

Evans, Lynne

Watermaster:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find more information about the application at: <https://research.idwr.idaho.gov/apps/waterrights/wrajsearch/wradjsearch.aspx>. A copy of the application is also attached to this email. Please review the application, then complete the enclosed recommendation form and return it to this office by December 26, 2023.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has passed. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation by December 26, 2023, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Please contact this office if you have any questions regarding the application.

Hi Travis,

I have received the amended application you submitted on Thursday last week. I think I have one final question that I should have addressed in the letter dated on October 5. You have put a diversion rate of 3.0 CFS, did you mean to have that as the volume amount? 3.0 CFS is equivalent to 1346.5 gallons per minute. I believe this number is more suitable for the storage volume of 3 acre-feet annually (AFA). If this is correct, can you please make a change on the application to show that volume amount being 3 AFA. The rate can remain the same, but it might make more sense to have the rate be a lesser amount, 0.2 CFS is common on many spring/storage rights such as this. Feel free to call me with any questions. Attached is the latest amended application. You can make the changes and send me a copy via email or drop off the application again at our office. My apologies for the inconvenience.

Respectfully,

Jared Adamson

Re: Notice of Intent to Void Application For Permit 65-24264

Dear Applicant(s),

On September 25, 2023 the Department of Water Resources (IDWR) received your Application for Permit to appropriate water. The Department requested additional information via a letter dated October 5, 2023. The letter stated that a written reply must be made within thirty (30) days or the Department will void the application. As of November 6, 2023, no written correspondence was received by the Department. If it is your intent to further pursue your application, please provide a written response to the original letter or request additional time to respond. It is the intent of the Department to void your application within the next fourteen (14) days if no response is received.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Sincerely,

Jared Adamson
Water Resource Agent, Sr.

Re: Application for permit 65-24264

Dear Applicant:

The Idaho Department of Water Resources is attempting to process your application. Unfortunately, this process is unable to proceed without your attention to the following matters concerning your application:

1. Amend the source under item 4 "Location of Point(s) of Diversion) to **Spring**.
2. Identify the tributary of the spring water. Does the water from the spring make it to a creek or river? If so, identify the named tributary. If the water from the spring sinks back into the ground and never makes it to a stream, write in **Sinks** as the tributary.
3. Write in **NE** in front of "NW/SW" under "QQQ/QQ/Q."
4. Please amend the purposes under item 5 "Water will be used for the following purposes" to what the storage water is going to be used for. What is the end use of the water? Here are some examples, Stock water storage, recreation storage, aesthetic storage, and/or wildlife storage.

Enclosed is a copy of the application with the needed corrections highlighted. Please cross out the errors, write in the corrections and initial and date the changes. After the changes have been made, you may return the amended application via mail or email it to file@idwr.idaho.gov. If emailing, ensure the amended copy is formatted as a PDF and Cc me on that email to expedite the processing of the application.

Please submit the requested information and the amended application and processing of your application may continue. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications.

Please call me at (208) 605-4627 with any questions.

Respectfully,

Jared Adamson
Water Resource Agent, Sr
