Water right transfers will be required to move water rights off of property in which the water rights are currently located and onto property owned by Eccles Flying Hat Ranch LLC, Eccles Window Rock Ranch LLC, Rosebud LLC, M & M Powersports Idaho, LLC and Friedman Memorial Airport Authority. This consent agreement gives permission for the legal water right owner to have water rights located on property owned by consenting entity. Thus, providing the ability for the legal water right owner to transfer their water rights to a permanent location.

This consent agreement does not alter or convey any legal ownership of water rights or property. This consent agreement will expire on 12/31/2025, which should be a sufficient amount of time for water right transfers to be prepared, submitted to the Idaho Department of Water Resources and approved.

Transmissivity Estimation with Partial Penetration

Bradbury and Rothschild (1985) specific capacity method.

Suitable for situations where a single time and drawdown measurement is available.

Includes effects of partial penetration using Sternberg (1973) approach.

Enter data in blue, pay attention to units. Vary "Trial T" until equal to "Calc T".

Property Owners: Derek & Anne Klomhaus

Application Type: Subdivision Application File No. P23-101

Project Description: The Ketchum Planning & Zoning Commission will hold a public hearing to hear public input, consider, and take action on, a subdivision application to consolidate two lots located at 600 East Ave. Currently, the subject property is comprised of two 3,300 sq ft lots with an existing single family residence. Greg-

I believe I almost have the 5 Eccles/Friedman Airport transfers ready for advertising, but I went back through to check the acres moving north vs. the acres moving south, and the acres going both ways are fine at 136.0 each way, but I think you want to backfill any of the acres coming out of Eccles Window Rock and going north with the Friedman rights going south, correct? It looks like some of the tweaking we did along the way threw that exchange slightly out of kilter. In the attached chart, you can see the different acres moving out of Eccles Window Rock in the different transfers and the acres moving back into Window Rock from the Airport. The problem QQs are: in Section 1, NWSW and SWNW; Section 2, NWNE and SENE.

Probably the easiest thing to do is to send over a replacement page 3 of transfer 87653 (Friedman Airport transfer) with the POU chart reflecting the acres leaving Window Rock and a new "To Window Rock" map with matching acres (see attached).

This is how I see it, but as you know, I am open-minded and always willing to discuss. And I think we are getting really close on these.

Additionally, Eccles Window Rock Ranch LLC will transfer 136.0 acre of irrigation water to the property owned by Friedman Memorial Airport Authority.

The 136.0 acres of water rights owned by Friedman Memorial Airport Authority that are included in the attached transfer application are 37-23407, 37-23410, 37-23411, 37-23413, 37-23418 and 37-23420. It is proposed that the 136.0 acres of water rights will transferred to four existing ground water wells, three existing Wood River points of diversion and a new point of diversion from the Wood River that will be a well drilled within 221 feet of the Wood River. The new well will be considered a point of diversion from the Wood River because it meets the requirements that 50% of the water pumped from the well in a 24 hour period can be considered Wood River water.

The ownership of water rights 37-23407, 37-23410, 37-23411, 37-23413, 37-23418 and 37-23420 will remain unchanged until after the transfer application is approved.

Greg Sullivan, M.S., Engineer
