DEPT OF WATER RESOURCES
SOUTHERN REGIONSTATE OF IDAHO
DEPARTMENT OF WATER RESOURCESTransfer No. 88369**MINIMUM REQUIREMENTS CHECKLIST**
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at idwr.idaho.gov.

Name of Applicant(s) Honey Hills LLCCheck whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part I.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part I. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part I.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).**
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part I.)
- ☐ ☒ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at <https://idwr.idaho.gov/water-rights/transfers/resources/>.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part I.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System ([GIS](#)) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. ([Attachment WSB](#))
- ☐ ☒ #10 Other. Please describe: _____

A. PURPOSE OF TRANSFER

- ☒ Change point of diversion
☐ Change nature of use
 ☒ Add diversion point(s)
☐ Change period of use
 ☒ Change place of use
☒ Other Add POD, Correct PLSS description
- Is this a transfer for changes pursuant to Idaho Code §42-221.0.8?
If yes, ☒ attach an explanation and any supporting documentation labeled as **Part 1A.2**.
- Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.3**.
Applicant seeks to add POD to water rights listed on application and correct place of use location
per IDWR's request as PLSS description on rights as a result of SRBA partial decrees
doesn't match current PLSS description of POD's or POU associated with the water rights.

**STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES**

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued**

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Burried pressurized irrigation system supplies irrigation water to property, wells provide domestic water to residence.

- b. Who owns the property at the point(s) of diversion? Applicant.

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
N/A.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: N/A.

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

None.

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

37-863E provides irrigatin water to applicant's property when water is available under the right.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- | | | |
|--------------------------|-------------------------------------|---|
| ☐ | ☒ | undergone a period of five or more consecutive years of non-use, |
| ☐ | ☒ | currently leased to the Water Supply Bank, |
| ☐ | ☒ | currently used in a mitigation plan limiting the use of water under the right, or |
| ☐ | ☒ | currently enrolled in a Federal set-aside program limiting the use of water under the rights? |

If yes, describe:

N/A.

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

The new well will serve domestic water for existing residence, the existing well to provide irrigation water for property through buried pressurized irrigation system.

- b. Who owns the property at the point(s) of diversion? Applicant.

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
N/A.

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

N/A.

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. MAP – ☒ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and ¼ ¼ of section information. You may create a map at idwr.idaho.gov, Water Rights, Water Right Transfers, File a Transfer Application, Step 2C.

8. SIGNATURE – The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

9. FEE – ☒ The application filing fee provided in Idaho Code § 42-221.O, must be submitted with the application for transfer. Applications for changes pursuant to Idaho Code § 42-221.O.8. require a filing fee of \$50 per water right. All other application fees are based on the total amount of water proposed for transfer in Item 4: the larger fee for either cubic feet per second (diversion rate) or acre-feet per annum (storage volume). The Fee Schedule is available at www.idwr.idaho.gov, Water Right Transfers, Step 4 and in the Application for Transfer Instructions.

NOTICE OF STIPULATION
REGARDING A&B IRRIGATION
DISTRICT'S AMENDED
MITIGATION PLAN IN RESPONSE
TO THE SURFACE WATER
COALITION WATER DELIVERY
CALL

Notice is hereby given that, on December 27, 2023, A&B Irrigation District ("A&B"), Burley Irrigation District, Milner Irrigation District, North Side Canal Company, and Twin Falls Canal Company, through their counsel Travis L. Thompson, PO Box 63, Twin Falls, ID 83303-0063, and the American Falls' Reservoir District #2 and Minidoka Irrigation District, through their counsel, Kent Fletcher, PO Box 248, Burley, ID 83318, submitted a Stipulation Regarding A&B Irrigation District's Amended Rule 43 Mitigation Plan ("Stipulation Mitigation Plan" or "Stipulation") to the Idaho Department of Water Resources ("Department"). The irrigation entities listed herein who submitted the Stipulation are collectively known as the "Stipulating Parties."

The Stipulation is intended to satisfy A&B's mitigation obligations for the Surface Water Coalition ("SWC") Water Delivery Call administered by the Department and watermasters of state water districts who administer ground water rights within the Eastern Snake Plain Aquifer ("ESPA"). The SWC consists of irrigation water delivery entities that hold senior surface water rights diverted from the Snake River above Milner Dam. The SWC members include all of the Stipulating Parties referenced above in this notice. A&B holds ground water rights within a portion of the ESPA that are junior in priority to the SWC's senior priority Snake River water rights.

A&B filed an amended mitigation plan on May 21, 2015. The Department issued a Final Order Approving Plan on December 16, 2015. The Stipulating Parties have filed the new Stipulation "so that A&B does not have to submit new documentation every year showing that it can mitigate for its proportionate share of a predicted demand shortfall." The Stipulation proposes that A&B will continue to mitigate injury to all the SWC members by curtailing ground water diversions to approximately 3,574 acres within Unit B of A&B's irrigation service area and replacing the ground water with surface water (commonly referred to as "conversions"). The Stipulation further proposes to deliver available storage water held or obtained by A&B to injured SWC members if the benefits of the conversions do not satisfy the injury caused by A&B's ground water rights that are found to be subject to curtailment in any given year.

The Department will process the Stipulation Mitigation Plan pursuant to the Department's Conjunctive Management Rules (IDAPA 37.03.11). A complete copy of the Stipulation is available for review at either the Department's State Office in Boise, the Department's Regional Office in Twin Falls, or at the following website link: <https://idwr.idaho.gov/legal-actions/mitigation-plan-actions/swc/abi/>.

The Department has not determined the adequacy of the Stipulation Mitigation Plan. Any protest against approval of the Stipulation must be filed with the Department, together with a protest fee of \$25, on or before February 5, 2024. Rule 53 of the Department's Rules of Procedure

(IDAPA 37.01.01.053) outlines how documents may be filed with the Department and when they are considered filed. A copy of the Rules of Procedure may be obtained from the Department upon request or at <https://adminrules.idaho.gov/rules/current/37370101.pdf>. The protest must include a certificate of service showing that a copy of the protest has been mailed or delivered personally to counsel for the Stipulating Parties.

PUBLISH
IDAHO MOUNTAIN EXPRESS
JANUARY 17 & 24, 2024

NOTICE OF MITIGATION PLAN
SUBMITTED BY BONNEVILLE-
JEFFERSON GROUND WATER
DISTRICT IN RESPONSE TO THE
SURFACE WATER COALITION
WATER DELIVERY CALL

Notice is hereby given that, on December 19, 2023, Bonneville-Jefferson Ground Water District ("BJGWD"), through counsel Skyler C. Johns, PO Box 3005, Idaho Falls, ID 83403, and on behalf of BJGWD members, submitted the Petition for Approval of Bonneville-Jefferson Ground Water District's Conservation Mitigation Plan for the Surface Water Coalition ("Mitigation Plan" or "Plan") to the Idaho Department of Water Resources ("Department").

The Plan is intended to satisfy the mitigation obligations of BJGWD for the Surface Water Coalition ("SWC") Water Delivery Call administered by the Department and watermasters of state water districts who administer ground water rights within the Eastern Snake Plain Aquifer ("ESPA"). The SWC consists of irrigation water delivery entities that hold senior surface water rights diverted from the Snake River above Milner Dam. The SWC members include A&B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company. BJGWD represents members who hold ground water rights within a portion of the ESPA that are junior in priority to the SWC's senior priority Snake River water rights.

BJGWD proposes a five-year plan to mitigate its proportionate share of injury to all the SWC members. BJGWD proposes a quantification of the "BJGWD Obligation from the Total Obligation" in part by using "a steady-state rendition of the ESPAM2.2 aquifer model." BJGWD proposes to meet the "BJGWD Obligation" implementing the following efforts:

- 1) Aquifer Recharge: the Plan states that "Recharge under this plan refers to intentional processes that measure and convey surface water to underground storage in the ESPA." Under the Mitigation Plan, the BJGWD may assign its Recharge to any location within the ESPA.
- 2) Pumping Reductions: the Plan states that "Pumping Reductions refer to any reduction in ground water pumping from the BJGWD's established Baseline Value", which is recommended as 2.30 acre-feet per acre pursuant to calculations attached as Exhibit A to the proposed Mitigation Plan.
- 3) Fallowing Acres: the Plan states that "Fallowing Acres refers to the intentional withholding of ground water from a defined section of land that is otherwise authorized to divert ground water under a valid water right."
- 4) Delivery of Storage Water (or Wet Water Delivery): the Plan states that "Wet Water Delivery refers to the direct delivery of storage water to the SWC that is acquired from surface water sources."

The Plan further proposes that by May 1 of each year, BJGWD will certify to the Department BJGWD's com-

mitments for reductions or fallowing, commitments for recharge including water supply, conveyance and use of facilities, and commitments for wet water delivery.

The Department will process the Plan pursuant to the Department's Conjunctive Management Rules (IDAPA 37.03.11). A complete copy of the Mitigation Plan is available for review at either the Department's State Office in Boise, the Department's Regional Offices in Twin Falls and Idaho Falls, or at the following website link: <https://idwr.idaho.gov/legal-actions/mitigation-plan-actions/swc/bjgwd/>.

The Department has not determined the adequacy of the Mitigation Plan. Any protest against approval of the Mitigation Plan must be filed with the Department, together with a protest fee of \$25, on or before February 5, 2024. Rule 53 of the Department's Rules of Procedure (IDAPA 37.01.01.053) outlines how documents may be filed with the Department and when they are considered filed. A copy of the Rules of Procedure may be obtained from the Department upon request or at <https://adminrules.idaho.gov/rules/current/37370101.pdf>. The protest must include a certificate of service showing that a copy of the protest has been mailed or delivered personally to counsel for BJGWD.

NOTICE OF MITIGATION PLAN
SUBMITTED BY MADISON
GROUND WATER DISTRICT AND
HENRY'S FORK GROUND WATER
DISTRICT IN RESPONSE TO THE
SURFACE WATER COALITION
WATER DELIVERY CALL

Notice is hereby given that, on December 18, 2023, Madison Ground Water District and Henry's Fork Ground Water District ("MHFGWDs" or "GWDS"), through their counsel Jerry R. Rigby, PO Box 250, Rexburg, ID 83440, and on behalf of the GWDS members, submitted the Petition for Approval of Madison Ground Water District and Henry's Fork Ground Water District's Storage Water Mitigation Plan for the Surface Water Coalition ("Mitigation Plan" or "Plan") to the Idaho Department of Water Resources ("Department").

The Plan is intended to satisfy the mitigation obligations of the GWDS for the Surface Water Coalition ("SWC") Water Delivery Call administered by the Department and watermasters of state water districts who administer ground water rights within the Eastern Snake Plain Aquifer ("ESPA"). The SWC consists of irrigation water delivery entities that hold senior surface water rights diverted from the Snake River above Milner Dam. The SWC members include A&B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company. MHFGWDs represent members who hold ground water rights within a portion of the ESPA that are junior in priority to the SWC's senior priority Snake River water rights.

The GWDS propose to offset the amount of water the SWC would receive from curtailment of ground water rights held by members of MHFGWDs by 1) annual delivery or assignment of 1,500 acre-feet of storage water to the SWC members from reservoirs in the Water District 1 reservoir system, and 2) recharge, on an average annual basis, of 3,000 acre-feet of water in the Henry's Fork basin. If this provides less water to the SWC than is required to fully offset the amount of water the SWC would receive from curtailment of ground water rights held by members of the GWDS, the GWDS will secure and assign storage to the SWC members or recharge such further volume

of water as may be required by the Department.

The Plan proposes that if the GWDS secure and deliver less storage than is required to fully offset the amount of water the SWC would receive from curtailment of ground water rights held by the GWDS members, the GWDS may be subject to curtailment to make up the shortfall, unless the GWDS provide mitigation under another approved mitigation plan.

The Department will process the Plan pursuant to the Department's Conjunctive Management Rules (IDAPA 37.03.11). A complete copy of the Mitigation Plan is available for review at either the Department's State Office in Boise, the Department's Regional Offices in Twin Falls and Idaho Falls, or at the following website link: <https://idwr.idaho.gov/legal-actions/delivery-call-actions/swc/mgwd-hfgwd/>.

The Department has not determined the adequacy of the Mitigation Plan. Any protest against approval of the Mitigation Plan must be filed with the Department, together with a protest fee of \$25, on or before February 5, 2024. Rule 53 of the Department's Rules of Procedure (IDAPA 37.01.01.053) outlines how documents may be filed with the Department and when they are considered filed. A copy of the Rules of Procedure may be obtained from the Department upon request or at <https://adminrules.idaho.gov/rules/current/37370101.pdf>. The protest must include a certificate of service showing that a copy of the protest has been mailed or delivered personally to counsel for MHFGWDs.

NOTICE OF MITIGATION PLAN
SUBMITTED BY NORTH SNAKE
GROUND WATER DISTRICT IN
RESPONSE TO THE SURFACE
WATER COALITION WATER
DELIVERY CALL

Notice is hereby given that, on December 20, 2023, North Snake Ground Water District ("NSGWD"), through counsel Thomas J. Budge, PO Box 1391, Pocatello, ID 83204-1391, and on behalf of NSGWD members, submitted the Petition for Approval of NSGWD's Mitigation Plan for the Surface Water Coalition ("Mitigation Plan" or "Plan") to the Idaho Department of Water Resources ("Department").

The Plan is intended to satisfy the mitigation obligations of NSGWD for the Surface Water Coalition ("SWC") Water Delivery Call administered by the Department and watermasters of state water districts who administer ground water rights within the Eastern Snake Plain Aquifer ("ESPA"). The SWC consists of irrigation water delivery entities that hold senior surface water rights diverted from the Snake River above Milner Dam. The SWC members include A&B Irrigation District, American Falls Reservoir District #2, Burley Irrigation District, Milner Irrigation District, Minidoka Irrigation District, North Side Canal Company, and Twin Falls Canal Company. NSGWD represents members who hold ground water rights within a portion of the ESPA that are junior in priority to the SWC's senior priority Snake River water rights.

NSGWD proposes to mitigate injury to all the SWC members by providing to the SWC an amount of water equivalent to what the SWC would receive from curtailment under the SWC delivery call pursuant to the Sixth Final Order Regarding Methodology for Determining Material Injury to Reasonable In-Season Demand and Reasonable Carryover or any other Department order. NSGWD proposes to offset all or part of the water the SWC would receive from curtailment

of NSGWD's ground water rights by (a) assigning or delivering to the SWC members storage water from reservoirs in the Water District 1 reservoir system, (b) conducting managed aquifer recharge, (c) reducing ground water use, (d) allowing land that would otherwise be irrigated with ground water, or (e) any combination thereof.

The Plan proposes that if NSGWD provides less water to the SWC than is required to fully offset the amount of water the SWC would receive from curtailment, unless NSGWD provides mitigation under another approved mitigation plan that fully mitigates material injury to the SWC.

The Department will process the Plan pursuant to the Department's Conjunctive Management Rules (IDAPA 37.03.11). A complete copy of the Mitigation Plan is available for review at either the Department's State Office in Boise, the Department's Regional Offices in Twin Falls and Idaho Falls, or at the following website link: <https://idwr.idaho.gov/legal-actions/mitigation-plan-actions/swc/nsgwd/>.

The Department has not determined the adequacy of the Mitigation Plan. Any protest against approval of the Mitigation Plan must be filed with the Department, together with a protest fee of \$25, on or before February 5, 2024. Rule 53 of the Department's Rules of Procedure (IDAPA 37.01.01.053) outlines how documents may be filed with the Department and when they are considered filed. A copy of the Rules of Procedure may be obtained from the Department upon request or at <https://adminrules.idaho.gov/rules/current/37370101.pdf>. The protest must include a certificate of service showing that a copy of the protest has been mailed or delivered personally to counsel for NSGWD.

NOTICE OF PROPOSED CHANGE
OF WATER RIGHT
TRANSFER NO. 88369

HONEY HILLS LLC, 1114 STATE ST STE 310, SANTA BARBARA, CA 93101-2739 has filed Application No. 88369 for changes to the following water rights within BLAINE County(s): Right No(s): 37-7871; to see a full description of these rights and the proposed transfer, please see <https://research.idwr.idaho.gov/apps/water-rights/querynewtransfers>. The purpose of the transfer is to change a portion of the above rights as follows: The transfer application proposes to drill a new well for a second point of diversion (POD) to a 0.13 cfs ground water right for domestic use and the irrigation of 3.0 acres. The application also proposes to update the legal description of place of use (POU) to identify the correct location. The POD and POU are located on Eagle Creek Road approximately 0.5 miles east and 5.3 miles north of Ketchum (Main St and Saddle Rd).

For additional information concerning the property location, contact Southern Region office at (208) 736-3033. Protests may be submitted based on the criteria of Idaho Code Sec. 42-222. Any protest against the proposed change must be filed with the Department of Water Resources, Southern Region, 650 ADDISON AVE W STE 500, TWIN FALLS ID 83301-5558 together with a protest fee of \$25.00 for each application on or before February 5, 2024. The protest must also send a copy of the protest to the applicant.

RE: Transfer No. 88369
Water Right No(s). 37-7871

Dear Applicant(s):

The Department of Water Resources has received your water right transfer application. Please refer to the transfer number referenced above in all future correspondence regarding this transfer.

A legal notice of the application has been prepared and is scheduled for publication in the **IDAHO MOUNTAIN EXPRESS on 1/17/2024 and 1/24/2024**. Protests to this application may be submitted for a period ending ten (10) days after the second publication. Any protest against this application must be filed with the Department of Water Resources, together with a protest fee of \$25.00 for each application, on or before **February 5, 2024**.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the approval document.

Please contact this office if you have any questions regarding the application.

Sincerely,

Denise Maline
Administrative Assistant

Re: Transfer No(s). 88369 (Honey Hills LLC)

Dear Sunny:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from you regarding the above referenced water right application. You can find a copy of the application at:

<https://idwr.idaho.gov/apps/ExtSearch/WRAJSearch/WRADJSearch.aspx>. Please review the application, then complete the enclosed recommendation form and return it to this office within 21 days of the date of this letter.

If the application is approved, IDWR will include appropriate standard conditions of approval for a water right located within a water district, such as regulation by the watermaster, lockable controlling works, and/or measuring devices. Any special conditions or other concerns you have related to this application should be specifically addressed in your recommendation.

IDWR can finish reviewing an unprotested application as soon as the protest period has passed. Your prompt response to this request will ensure that your recommendation can be considered. If IDWR has not received your written recommendation within 21 days from the date of this letter, IDWR will presume that you do not oppose approval of the application and that you have no comments for IDWR to consider.

Sincerely,

Denise Maline

To: Transfer 88369
From: Benny Walker
Re: Synopsis and Legal Description

The transfer application proposes to drill a new well for a second point of diversion (POD) to a 0.13cfs ground water right for domestic use and the irrigation of 3.0 acres. The application also proposes to update the legal description of place of use (POU) to identify the correct location. The POD and POU are located on Eagle Creek Road approximately 0.5 miles east and 5.3 miles north of Ketchum (Main St, and Saddle Rd). The water right is within water district 37 therefore watermaster comments will be solicited.

FEE MEMORANDUM

Date: January 10, 2024
To: Honey Hills LLC, Transfer #88369 File
From: Benny Walker
Re: Receipting/disposition of fees paid

The purpose of this transfer is to add a point of diversion and update the place of uses legal description for water right 37-7871 for domestic and irrigation of 3.0 acres. The fee is based on the flow rate of 0.13 cfs. From the transfer fee schedule, the appropriate fee is \$200.00, which was paid by Brockway Engineering, PLLC check #17577. The IDWR receipt number is S039906.

VIA EMAIL: Honey Hills LLC- POD Water Right Transfer Application.

Dear Benny,

Enclosed is a water right transfer application filed in the name of Honey Hills LLC which proposes to add a point of diversion (new well) to existing ground water right 37-7871 and to correct the legal description of the place of use associated with the water right. Per your request, this application is to supersede the short POD transfer application no. 88369 submitted to IDWR on August 16th 2023 in order to correct the legal description of the water right. Please move forward with processing of the attached application.

Please copy Brockway Engineering on all correspondence regarding this water right transfer application. Per our conversation last week, the check submitted to the Department to cover the cost of the previous application (\$200) can be applied to the enclosed application and therefore additional payment is not required. Don't hesitate to give me a call should you have any further questions or comments.

Regards,

Zach Latham, M.S., Hydrologist.

Hey Zach,

How's life treating you? I hope all is well. I just wanted to touch base with you about the replacement transfer for Honey Hills. When last we talked, we discussed the need for you to submit a long form application to change a point of diversion, to add a point of diversion, and to change the place of use. For the domestic and irrigation uses, to update the legal descriptions to the NW NE Sec 14, Twp 05N, Rge 17E. I appreciate your help with this.

Thanks,
Benny
