

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
BENEFICIAL USE FIELD REPORT

A. GENERAL INFORMATION

Permit No: 63-33443
Exam Date: 02/24/2022

1. Current Owner:
BECKMAN ESTATES LLC C/O RONALD C BECKMAN
PO BOX 2664 EAGLE ID 83616-9122
2. Accompanied by: RONALD C BECKMAN
Phone No: 208-369-1418
Address: PO BOX 2664 EAGLE ID 83616-9122
Relationship to permit Holder: PERMIT HOLDER

3. **SOURCE:**
GROUND WATER

Method of Determination: Aerial photography and site visit

B. OVERLAP REVIEW

1. Other water rights with the same place of use: None

2. Other water rights with the same point-of-diversion: YES Overlap

Water Right No.	Source	Purpose of Use	Basis
63-33441	GROUND WATER	IRRIGATION	LICENCES
63-33444	GROUND WATER	IRRIGATION	LICENCES

Comments: The above-mentioned water rights are part of the same system using the same POD but different POU's based on lot location. The above rights are also the same owner as this right.

C. DIVERSION AND DELIVERY SYSTEM

1. **LOCATION OF POINT(S) OF DIVERSION:**
GROUND WATER SW¼ NE¼, Sec. 29, Twp 05N, Rge 01E, B.M. ADA County

Method of Determination: Aerial photography, well log, and site visit

PLACE OF USE: IRRIGATION

Twp	Rng	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
05N	01E	29			1.5														1.5

Total Acres: 1.5

Method of Determination: Aerial photography and site visit

3.

 x Delivery System Diagram Attached (required). Indicate all major components and distances between components. Indicate weir size/pipe as applicable.

 x Map Attached Showing Location(s) of point(s) of diversion and place(s) of use (required). Scale must be 1:24,000 or greater.

 N/A Aerial Photo Attached (required for irrigation of 10+ acres).

 x Photo of Diversion and System Attached

4.

Well or Diversion ID No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
441028	Webtrol	7.5	0615030797M14	Franklin Electric	14L19-12-06064A

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
N/A	N/A	N/A	N/A	N/A	N/A	N/A

2. Measurements: None taken

E. FLOW CALCULATIONS

 N/A Additional Computation Sheets Attached

Measured Method: Following IDAPA Beneficial Use Exam Rules 35.01.(r), no measurement was taken.

Irrigation 0.05 cfs

Permitted Total Rate 0.24 cfs

License Recommendation 0.05 cfs

F. VOLUME CALCULATIONS

1. Volume Calculations for irrigation:

$$V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 1.5 \text{ acres} \times 4.5 \text{ AFA} = 6.75 \text{ AF}$$

$$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation season}) \times 1.9835 = 0.05 \text{ cfs} \times 259 \text{ days} \times 1.9835 = 25.69$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 6.75 \text{ AF}$$

2. Volume Calculations for Other Uses: N/A

G. NARRATIVE/REMARKS/COMMENTS

An in-house beneficial use exam was conducted for permits 63-33441, 63-33442, 63-33443, and 63-33444 on February 24, 2022, by Water Right Agent Marcelina Williams. Satellite imagery indicated no beneficial use had been established. On February 24, 2022, a letter was mailed to the permit holder to inform them the permits were to be voided. Upon receiving the letter, the permit holder called the department and requested an in-person field exam be done to see the development of the irrigation portion of the permits. On May 24, 2022 a field exam was conducted by Water Right Agent Marcelina Williams and accompanied by Ronald Beckman. Mr. Beckman is the main contact for the permit holder Beckman Estates LLC. All permits were issued on January 10, 2012, and proof of beneficial use was submitted on January 3, 2022.

The point of diversion (POD) location was confirmed in the SWNE of Sec 29, T05N, R01E. The POD is installed with a 7.5 hp Webtrol pump and Franklin Electric motor. Permits 63-33441, 63-33442, 63-33443, and 63-33444 all use the same POD. No amendment will be required for the legal description of the POD.

Permit 63-33443 authorizes a total appropriation of 0.24 cfs for irrigation, domestic, and stockwater use within SWNE of Sec 29, T05N, R01E. ArcMap tools and aerial imagery, supported by photos taken during the field exam, were used to verify the POU area. This POU is a shared system with permits 63-33441, 63-33442, and 63-33444. The system diverts from the POD to a 4-inch main line that feeds a 5-zone drip system. One zone falls within the permitted POU area for 63-33443. Domestic and stockwater were not developed under this permit and will not be recommended for the license. No amendment required to correct the legal description of the POU.

Condition 103 replaced condition 121 per department standards. Conditions X01, X02, X27, 26A, 046, and 01M were removed at licensing. Conditions R65, X59, 004, 165, and two written in conditions were carried over at licensing per department standards.

Have conditions of permit approval been met? ☒ Yes ☐ No

H. RECOMMENDATIONS**1. Recommended Amounts**

<u>Beneficial Use</u>	<u>Period of Use</u>	<u>Rate of Diversion</u>	<u>Annual Volume</u>
IRRIGATION	03/01 to 11/15	0.05 CFS	6.8 AF
Totals:		0.05 CFS	6.8 AF

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☒ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☒ None

Well Construction Section

INTEROFFICE MEMORANDUM

TO: File – Water Right No. 63-33441
FROM: Sonny Hornbaker P. G.
DATE: 11/30/2015
SUBJECT: Well Seal for Well Tag Number D0069029

On May 4th, 2015 Coonse Well Drilling commenced drilling a Domestic/Irrigation well (D0069029) for Ronald Beckman located at the northwest corner of Quarter Dr. and Willean. As stipulated by the water right (63-33441) the well is to be constructed with unperforated pipe sealed into the first confining layer located 200 feet or more below ground. Reviewing the well log submitted shows the well was constructed by driving 8 inch unperforated casing down the borehole as the bore hole was advanced. This drilling method advances the casing without an overbore thus leaving no open void space between the sediments and 8 inch casing due to the fact the drill bit is somewhat smaller in diameter than the 8 inch casing drive shoe which shaves the borehole out to the 8 inch outside casing diameter. Whatever void space could possibly exists is filled by expansion of clayey sediments which according the the drill log are numerous and would provide many zones of confinement, preventing migration/flowing water up or down the outside of the well casing. As indicated by the numerous clayey sediments and the type of well construction, would provide a much more impervious seal the full length of the casing rather than overbore type drilling which requires a manmade poured seal to prevent up or downward flows along the well casing. From 200 feet down to the production zone there are four distinct layers of clayey sediments totaling 44 feet of significant clay preventing transmigration of water between sandy layers of sediments. Additionally, 10 foot of stainless steel screen has been installed from 273 to 283 feet where most of the permeable sediments are located, thus restricting flows from overlying sedimentary zones.

8. The Driller hereby accepts the terms and conditions of the Start Card Permit.

Principal Driller's Signature: Gary E Coonse Date: 5/4/2015

9. The Well Owner affirms to have read this Start Card Permit, validates its accuracy and accepts the conditions.

Property Owner's Signature: Date:

CONDITIONS FOR USE OF START CARD:

1. This permit authorizes the construction or modification of one domestic well for a single-family residence. No additional residences, businesses, or dwellings may be connected to this well without a valid water right. Limited to irrigation of 1/2 acre lawn/garden and 13,000 gpd.

2. This form must be complete, including the prepaid tag number and signature of the driller. The owner should sign the start card after reviewing these conditions. Mailing must take place no less than 72 hours prior to construction (Dept. address below), hand delivered, or faxed to the Dept. prior to commencing construction. The start construction date shall be no more than 10 days after the Department receives the permit. An incomplete form will not be considered a valid permit to drill.

3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare. All wells must be drilled a minimum distance of 100' from a drain field. Domestic wells must be drilled a minimum of 50' from a septic tank.

4. Only Well Drillers licensed in Idaho may use a Start Card for construction of a well. The driller shall maintain a copy of the Start Card and the well I.D. tag at the drilling site during construction.

5. This drilling permit does not authorize trespass on the land of another party.

6. This drilling permit does not constitute other local, county, state, or federal approvals which may be required for construction of a well.

7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.

8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.

9. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (Digline is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "Digline" Number for your area is 1-800-342-1585.

10. The stainless steel I. D. tag must be welded to the well casing by the driller upon completion of the well, and prior to removing the drill rig from the drill site and must remain permanently attached above ground level for the life of the well. The well tag shall be attached by welding at least 3 sides or using four (4) stainless steel, closed-end pop rivets.

11. A start card is not valid for drilling in Areas of Drilling Concern, Critical Groundwater Areas, Groundwater Management Areas, or other Areas as Identified by the Department.

12. The possession of a well tag does not authorize construction of a well.

13. Any well being replaced by a new well shall be properly abandoned by the well driller prior to removing the drilling equipment unless otherwise authorized by the department.

Your Start Card Application and/or Tag purchase may be submitted to one of the following offices:

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is APPROVED RES Date May 26, 2015

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. **READ CAREFULLY!**

GENERAL CONDITIONS:

1. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one(1) year from the approval date for completion of the well unless an extension has been granted.
2. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare, which may be required before construction of the well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum of 50 feet and 100 feet respectively from a septic tank.
3. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit and the well ID tag at the drilling site.
4. Approval of this drilling permit does not authorize trespass on the land of another party.
5. This permit does not constitute other local, county, state, or federal approvals which may be required for construction of a well.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho. If the well being drilled is associated with approved water right(s) use of the well must comply with conditions of said water right(s).
7. If the depth of this well exceeds 500 feet or the well is in an area known to have LTG water, bottom hole temperature must be measured and recorded on the Driller's Log, and reported on the Well Driller's Report.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller shall contact the Department immediately.
9. Idaho Code, S 55-2201 - 55-2210 requires the applicant and/or his contractors to contact "Digline" (DigLine is a one-call center for utility notification) not less than 2 working days prior to the start of any excavation for this project. The "DigLine" Number for your area is 1-800-342-1585.
10. The stainless steel I. D. tag must be securely and permanently attached to the well casing by the Driller upon completion of the well, and prior to removing the drill rig from the drill site and must remain permanently attached above ground level for the life of the well. The well tag shall be attached by welding at least 3 sides or using four (4) stainless steel, closed-end pop rivets.
11. Any well being replaced by a new well shall be properly abandoned by the well driller prior to removing the drilling equipment, unless otherwise authorized by the department.

**Re: Notice of Intent to Void Permit to Appropriate Water No. 63-33444, 63-33443,
63-33442, 63-33441**

Dear Permit Holder,

In 2010 Idaho Department of Water Resources (IDWR) issued permits 63-33441, 63-33442, 63-33443, and 63-33444 authorizing development. Each permit was approved to devolve the right in the following terms:

- Permit 63-33441 was authorized to divert 0.40 cfs of water from a well, located within the NW¼NE¼ of Section 29, Township 5 North, Range 1 East, for the irrigation of 19.5 acres, 1 home, and stock water use.
- Permit 63-33442 was authorized to divert 0.14 cfs of water from a well, located within the SW¼NE¼ of Section 29, Township 5 North, Range 1 East, for the irrigation of 7.3 acres, and stock water use.
- Permit 63-33443 was authorized to divert 0.24 cfs of water from a well, located within the SW¼NE¼ of Section 29, Township 5 North, Range 1 East, for the irrigation of 10 acres, 1 home and stock water use.
- Permit 63-33444 was authorized to divert 0.84 cfs of water from a well, located within the SW¼SE¼ of Section 29, Township 5 North, Range 1 East, for the irrigation of 39.7 acres, 2 homes and stock water use.

Under the terms of the above permits, the development was to have been completed by January 01, 2022. On January 03, 2022, IDWR received your Proof of Beneficial Use statement indicating you had completed your development and put the water to beneficial use. However, on January 31, 2022, an IDWR field examiner reported that no development was ever constructed, and no irrigation system was ever installed in connection with the permit. Therefore, we could not confirm that a beneficial use of water has been developed in accordance with your permit.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. If you have not developed a beneficial use of water within the development period authorized by your permit, however, no water right has been established, and no license can be issued. Once the development

Governor Brad Little

Director Gary Spackman

period authorized by your permit expires, your permit cannot be retained to cover future development of the resource.

If you believe a water right license should be issued to you, please supply information to demonstrate that you established a beneficial use of water by January 01, 2022 in accordance with permits 63-33441, 63-33442, 63-33443, 63-33444. If I do not receive the requested information from you within thirty days, I will take action to void your permit under the provision of Section 42-219(8) of the Idaho Code. If you agree that no beneficial use of water occurred under permit 21-7156, you can shorten the voiding process by completing the enclosed relinquishment form and returning it to IDWR.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-605-4620 if you need more information. Thank you for your attention to these matters.

Sincerely,

Marcelina M. Williams | Water Resource Agent

Re: Relinquishment of Permit No(s). 63-33442, 63-33443, 63-33444

Dear Mr. Beckman,

Per our phone conversation regarding permits **63-33442, 63-33443, 63-3344** on September 21, 2023. It was determined only one permit (63-33441) would be eligible for a license recommendation once the well meets the criteria of the conditions on the permit.

Given these developments, it is helpful to have you officially relinquish your permits from the Department. For your convenience relinquishment forms are enclosed. **Please complete the attached form and submit it to the Department within the next 14 days.**

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-605-4632 if you need more information. Thank you for your attention to these matters.

Sincerely,

Marcelina Williams
Water Resource Agent Sr.
