RE: Change in Place of Use for Mountain Home Irrigation District Water Rights

Dear Sirs:

The Idaho Department of Water Resources (Department) acknowledges receipt of a map depicting revisions to the generally described place of use for water rights held by the Mountain Home Irrigation District (District) as contemplated by §43-323, Idaho Code. The map was hand-delivered to the Department's Western Regional Office by David Ascuena on June 9, 2023. Department staff created a revised digital boundary in our records based on the map. The revised boundary has been associated with the District's eleven water rights that authorize irrigation.

Copies of the large map will be available electronically, and a copy of this letter and attachment will be placed in each of the affected water right files. Those water right numbers are 61-263, 61-264, 61-266, 61-363, 61-10417, 61-10419, 61-10421, 63-2188, 63-2214, 63-19893, and 63-20139. A map of the revised digital boundary is attached for your reference. Please review the map and notify the Department if additional revisions to the place of use are necessary.

Please feel free to contact this office if you have further questions or require additional follow up with this matter.

Sincerely,

Nick Miller
Manager, IDWR Western Region

IN FILE # 61-263

Mountain Home Irrigation District

Updated Service Boundary - June 2023

43-323. PLACE OF USE. A change in the generally described place of use for a water right held by an irrigation district may be made without applying for a change under the provisions of section 42-222, Idaho Code, provided the district files with the department of water resources a map portraying the changes to the generally described place of use within which the district's water rights shall be exercised. For this filing requirement, it shall be sufficient to provide a drawing on a seven-and-one-half-minute (7-1/2) quadrangle map having a scale of one to twenty-four thousand (1:24,000) which shows the changes to the outer limits of the boundaries of the irrigation district to include each quarter-quarter section within which irrigation occurs. This map showing changes to the generally described place of use shall be filed with the department no later than April 1 of the year following the changes. Notwithstanding the filing of such map, only the legal description of an irrigation district's boundaries recorded in compliance with title 43, Idaho Code, shall constitute conclusive proof of the district's boundaries for purposes other than defining the generally described place of use for a water right held by the district.
