5. Description of diverting works:

Water is pumped from the creek and into a shared sprinkler system. The property is part of a large system of canals and streams that was built by the community back in the early 1900's. Muddy Creek, Thomas Fork, Dry Creek, Soren Canyon Creek, and Cooper Spring were all connected through a system of canals to water the community's fields. To the best of my knowledge, the water right never diverted directly from Thomas Fork Creek.
