5. Description of diverting works:

2 artesian/flowing wells connected to the stock tank, and used for flood irrigation. In the past, the prior owners used the wells for domestic, stock and irrigation. We currently only use the wells for stock and irrigation. The water used to run through a ditch and culvert that the stock drank from, and the excess water irrigated the area. We added a pipe to the larger well that connects to a stock tank. The smaller well still runs through the ditch. Both wells are still used for irrigation by flooding, the smaller through the ditch and the larger by overflowing the stock tank.
