Subject: IDWR Water Right Transfer -- Amended Application

Hello Augustus,

Attached you'll find an amended water right transfer and a map.

The amendment includes:

- The addition of Lot 6 to the point of diversion in the SESW.
- A specified total transfer amount of 0.2 cfs (i.e., the entire water right).
- A rearrangement of the place of use.
 - There are perhaps some unirrigated acres under the original place of use, so we may as well rearrange.
 - Please make sure that you own the land in L5 (SWSW) and NWSW.

- (Our taxlot data says that you do [see the attached Map] but sometimes it can be misaligned).

As far as submission – it appears that you have to print and sign the form. Then you can scan and email or send via the US mail. Or you can make an appointment with me, and I can make sure that it's available for you to sign.

Call me with questions – 208 715 0559.
