10. In which county(ies) are lands listed above as place of use located? Bear Lake

11. Do you own the property listed above as place of use? Yes (☒) No (☐)
If your answer is No, describe in Remarks below the authority you have to claim this water right.

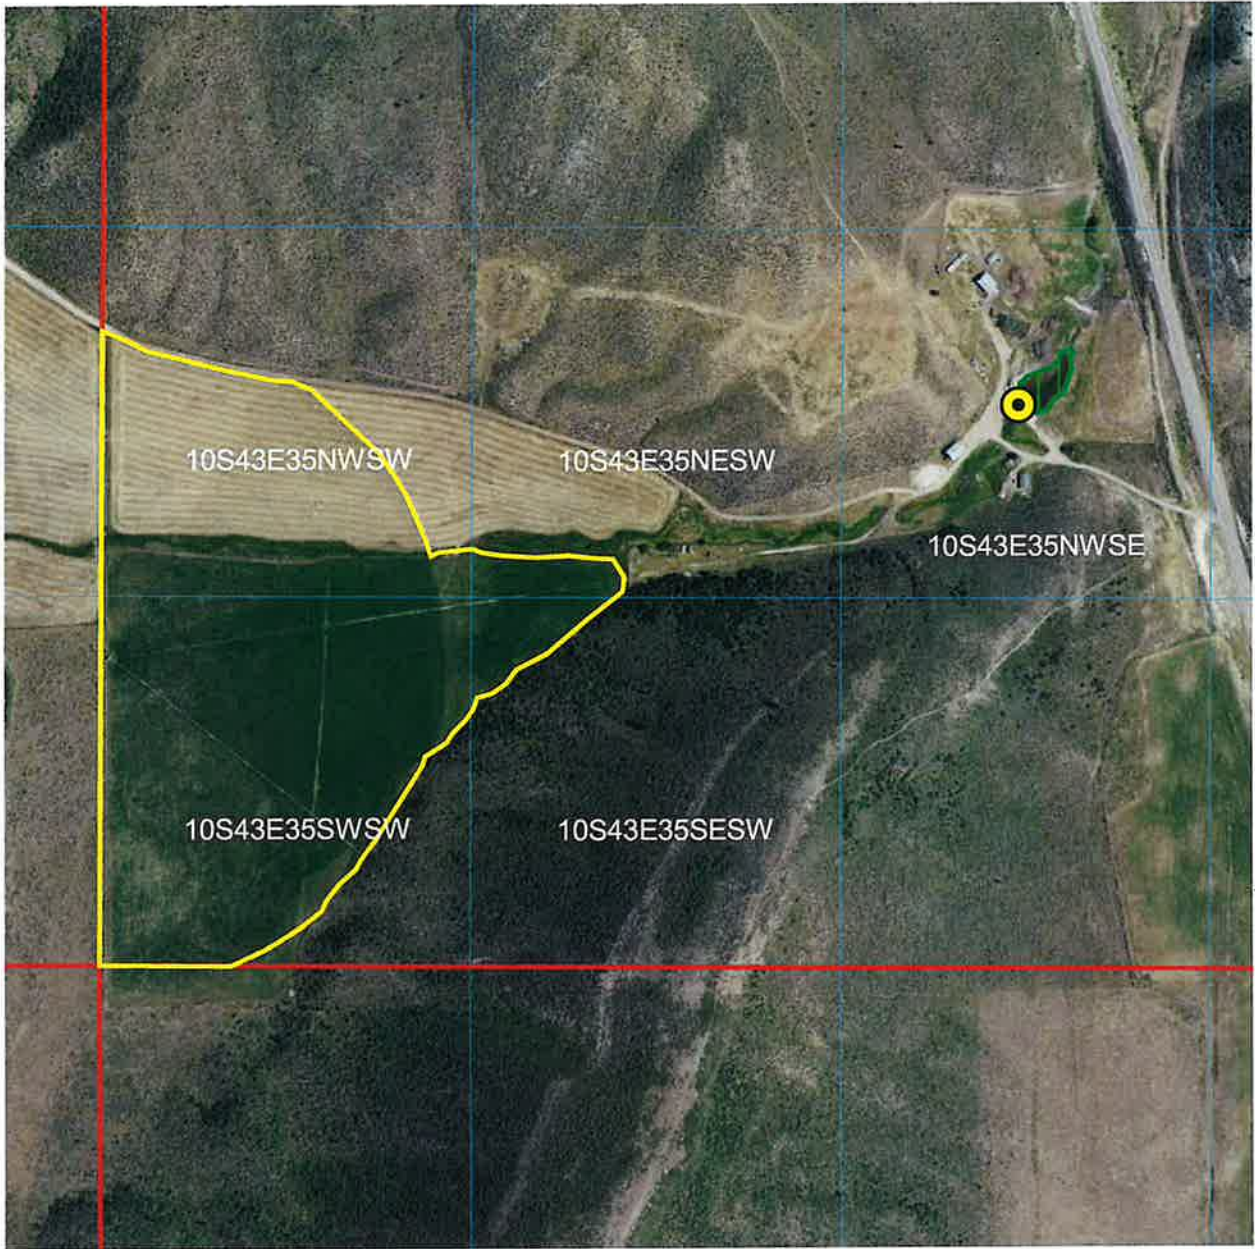

12. Describe any other water rights used at the same place and for the same purposes as described above.
_____ or None (☒)

13. Remarks (Include an explanation of the priority date selected):

- 1) Priority date per license.
- 2) Configuration of acres changed w/ installation of center pivot in 2020 but total acres & quarter-quarters did not.
- 3) 24-hour storage volume at licensed rate is $(0.42 \text{ cfs} \times 1.9835 \text{ acre ft/day/cfs}) = 0.83 \text{ acre feet}$. Surface area of pond is 0.54 acres, implying an acceptable average depth of $(0.83 \text{ acre feet} / 0.54 \text{ acres}) = 1.5 \text{ feet}$. Assuming typical pyramid geometry this implies max. depth of $1.5 \times 3 = 4.5 \text{ feet}$. This is reasonable per site observation
- 4) Diversion rate, acreage and season of use per license.
- 5) An accompanying claim describes stockwater use on the same property and from the same source.

Instructions for Form No. 42-1402-1

FILING FEES

Each claim submitted must include the filing fee. The filing fee for stockwater use claims diverting less than 13,000 gallons of water per acre is \$25.00. However, if you are filing more than four (4) claims in which the only stockwater, only the first four (4) claims require the \$25.00 filing fee. Claims are fee exempt once the \$100.00 in filing fees has been paid for stockwater only claims filed after July 1, 2017.

The flat fee for filing all other claims filed is \$50.00 per claim. An acre based upon acreage, power generating nameplate capacity, cubic feet per second amount, or an equivalent volume of storage water is required for claims that divert more than domestic and/or stockwater uses diverting less than 13,000 gallons per day. Use Table 3 to calculate the variable fee. Add the calculated variable fee to determine the total fee for the claim. The exceptions are fire water recharge which have a \$50.00 flat fee, and no variable fee.

Examples for a single claim to a water right with single source and

Single family domestic and stockwater use, less than 13,000 gallons per day in total \$25

100 acres irrigation, domestic and stockwater as above . . . \$150
