The right holder may divert ground water under this right to irrigate land with appurtenant surface water rights when the surface water supply is not reasonably sufficient to irrigate the place of use for this water right or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for canal company or irrigation district deliveries. The right holder shall not divert ground water for irrigation purposes under this right if use of the surface water supply is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code § 42-222 or other Department approval.
8. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: November 7, 2023
To: Transfer 87691
From: Jared Adamson
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to combine two existing permissible places of use into one permissible place of use (PPU). The proposed PPU is in Sections 14, 22, 23, 26, 27, 34, T06S, R03E, and Sections 3, 4, 5, T07S, R03E. The combined acre limit for these rights will be 942.2 acres within a 1434.0-acre PPU. The transfer will allow all the combined rights to be diverted from all but one of the proposed points of diversion.

This transfer will remove all rights except for 57-2285A and 57-2285B from a POD located in SENE, Section 4, T07S, R03E. This POD is identified as being LTG. Upon review of water right backfiles, these two rights were identified as being the rights originally developed and authorized for this POD. Transfer No. 80856 moved rights that were not authorized to divert LTG water to this POD in error. Condition 073 has been removed from these two rights. No other rights will be authorized to divert from this POD because of its LTG status.

Authority to File:

The applicant is the current owner of water rights per IDWR record and owner of the property at the proposed POD and proposed POU per Owyhee County parcel data (updated 10/25/2022).

Water Right Validity:

Water rights 57-7333A and 57-7331A were decreed in 1997. Water rights 57-2285A, 57-2285B, 57-1205, 57-120, and 57-1202 were decreed in 2001. Water rights 57-11886, 57-11887, 57-11888, 57-11889, 57-11890, 57-11891, 57-11892, 57-11893, 57-11894, 57-11895, 57-11896, and 57-11897 were decreed in 2002. Water rights 57-2108, 57-1222A, 57-7010A, 57-7184A, 57-7037, and 57-7036 were decreed in 2003. In review of aerial photography available to the department there is no clear and convincing evidence showing that forfeiture has occurred. Forfeiture is not an issue.

Injury to Other Water Rights:

No issues identified.

Enlargement of Use:

The approval of this transfer will not result in an enlargement of a water right. Sentinel imagery identified approximately 860.0 acres being irrigated within the PPU during the 2023 irrigation season.

Local Public Interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
