EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: March 13, 2024
To: Transfer 88814
From: Jared Adamson
Re: Review & Evaluation of Sufficiency of Information

The purpose of this transfer is to rearrange the place of use to reflect current irrigation practices. The ownership of water rights involved in this transfer will change as part of the application. The transfer was submitted in response to Enforcement Case No. E2024-2971.

An update to the point of diversion shape for water right 57-166 will be accomplished with this transfer. All rights are diverted from the same point of diversion but there were multiple shapes within the same location despite there being only one diversion. No change to the legal description or actual point of diversion as recorded is taking place.

Authority to File:

The applicant is changing the ownership for the water rights to Micah and Jennifer Good. The conveyance documents are attached to the application. The applicant is the owner of the property at the proposed place of use according to the conveyance documents provided. Owyhee County parcel data available to the IDWR has not yet been updated to reflect this change.

Water Right Validity:

These water rights were decreed on 01/25/2002.

Injury to Other Water Rights:

Injury to other water rights will not result from the proposed changes. The diversion rate and number of irrigated acres will remain the same. The water right has historically been used to irrigate portions of Bureau of Land Management (BLM) property. The proposed place of use does not include these acres on BLM property, and the approval of this transfer does not authorize the irrigation of these acres. Previously irrigated acres on BLM property shall not continue to be irrigated. Doing so would be considered an enlargement. These rights are regulated by WD 57C and the water master does not oppose the application.

Enlargement of Use:

The approval of this transfer will not result in an enlargement of a water right.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Effect on Economy the Local Area:

No issues identified.

Effect on Agricultural Base of the Local Area:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Re: Legal Notice Not Required

Legal Notice Not Required
3/13/2024

Pursuant to Section 42-222, Idaho Code, the Department has discretion to provide public notice as deemed appropriate. The water right changes proposed through this transfer application do not appear to change the effect on the original or hydraulically connected water source or affect other water rights. Therefore, staff review of the transfer application found no cause to require public notice. This application will continue processing without advertisement and be forwarded for approval consideration.

MEMO

Date: March 1, 2024
TO: Good, Micah Transfer Application
From: Jared Adamson
Subject: Fee paid was correct, no additional fee needed

This application was submitted on February 15, 2024. Upon receipt, the Department identified that the mailing address was incomplete, and an additional fee was required. This additional fee calculation was performed in error.

The fee amount for the transfer application is based on the amount of water being changed not the total diversion rate for the water rights involved in the transfer application. The applicant paid a fee of \$675. This fee was calculated based on the change of 0.58 cfs (\$500 fee) and the ownership change of 7 water rights (\$25 per water right).

No additional fee is required. After the applicant submits a corrected application with a complete address, the Department should process the application based on the \$675 fee.
