Re: Permit No. 65-23703 – 2022 Q3 Reporting Requirement

Dear Mr. Dobson:

Consistent with the *Agreement in Resolution of Protest* executed between you and the Bogus Basin Recreational Association, Inc. ("Bogus Basin") in resolution of your protest to Application for Permit No. 65-23703, and Condition of Approval No. 7 as to Permit No. 65-23703, Bogus Basin is required to report to you, on a quarterly basis and for the first five years that storage occurs under this right, with copies to the Idaho Department of Water Resources: (1) the monthly volume of water diverted from the pond; and (2) the starting and ending pond elevation for the same period.

For Quarter 3 of 2022, the below table demonstrates compliance with the reporting requirement:

	July 2022	Aug. 2022	Sept. 2022
Volume of Water Diverted from Pond	0.74	.12	0.02
Starting Pond Elevation for Month	5975'	5975.5'	5975.5'
Ending Pond Elevation for Month	5975.5'	5975.5'	5975.5'

The pond is measured at 5975' top elevation and 5930' bottom elevation. The water diverted in July, August, and September was for a fire drill, dust abatement associated with paving dirt parking lots, and periodic system checks of the snowmaking system. Most of the water that was used for the fire drill and system checks drained back into the pond.

Sincerely,

Chris M. Bromley
