Hello, Jill.

The instream stockwater notice was received and processed today. The water right number is 11-9228. Looks to me like the rate was based on 2 hours of pumping for 1500 head. That was a red flag for me, as most instream stockwater rights are 0.02 cfs, based on a constant flow and 13,000 per day. I'm doubtful this would qualify as a 42-111 domestic due to the size of the herd. I suspect that will be addressed at the recommendation stage. Let me know if you have any questions.

Michael

Good morning,

Jill mentioned to me that this form needs to be sent to you for a water right #. I will put the original in the mail today.

Thank you,

Marion Beck
