To whom it may concern:

I am writing to question the letter written to me regarding the Purpose and Period of use, when, I went over the information in detail, with the Supervisor of the Department of Water Resources, whom helped me navigate the mapping to identify and designate the sources of water I have been using. He helped me mark on the map, 3 sources of water used over thirty years prior to that date of 86 was it- surface water, a hand dug well, and the use of the spring on my property, and additional use for a MIL "Mother-in-Law" dwelling, which was not identified in the letter of response that only identified "Domestic Use for 1 home" 1/1-12/30? of what year all years? at .040 cfs 13,000 gallons per day. There is a water right use claim of 97-9337 on this parcel.

I was told that I did not need to pay until I am ready to build, since the permit is only good for 5 years, and, since, Ecology Water Resources has decided now to allocate water use after it has been historically used for years. I have a different address than you have, so therefore please sent any response to the above address. I can be reached at 360-529-1931.
