If your answer is no, describe in remarks below the authority you have to claim this water right.

11. Other Water Rights Used:

30 Twin Lakes shares

12. Remarks:

Priority Date Explanation:

This is when the field was first tiled and drained to use for irrigation and stockwater, and use continues today. The original statutory claim had the pond at a nearby location within the same legal description. In 2017 NRCS deepened pond, pump, and mainlines where it currently is today. I am irrigating 20 acres within the 60 acre parcel. This parcel is 64 acres, 50 acres are irrigated. This mixes with Twin Lake and impossible to say that the 0.4 cfs is only watering 10 acres. What is available through the drain may or may not cover the full 20 as the drain fluctuates, but historically this claim plus 30 shares from twin lakes has covered the irrigated 50 acres.
