12. Remarks:

Priority Date Explanation:

This is the date that the original claimant claimed on the system. Our home is an old log cabin that was expanded over time. We believe it to be part of the Perry homestead, and predates 1907, however we aren't sure when the home was added to the system using the spring, but it would have had to have a water source at some time to supply the home. We currently use the spring for our domestic uses. We have added a well to supplant the spring water for the home. This system serves four homes. Our deed says that we have a 1/6 part of the water right, we are claiming only our house water, not the other homes' water.
