Hi Sandra,

The well currently only serves the two home you have outlined. Previously the well also served the home located two lots to the north. The home in between had its own water source. The other neighbor disconnected several years ago in order to put in their own well.

Soooo, now the well only services 45 and 55 Sherwood lane.

Best,
Ed

Hello, I am contacting you again with water right questions. We may have resolved this back in February, but I can't find any notes. The attached license is for three homes. Do three houses receive water from the well? Does the well serve the two parcels I've identified below? I appreciate any information you can provide.

Hi Sandra, the well is located at the southeastern corner of the northern waterfront lot. So essentially the shared eastern corner between the two waterfront lots. Does that make sense? Feel free to call me at +12069993939.

Cheers,
Ed

Hello, I am reviewing your water right claim and have question. I do not know where the point of diversion, well, is located? Can you please look at the attached map and identify the location?
