Good afternoon,

Unfortunately, looking over the markups I performed on the original document I saw that I made a typo and put down 1997 instead of 1977. I'm very sorry but could you please sign this copy with the corrected date for me?

Sincerest apologies,
-Jacob Caraig

Jacob – Thanks for the email. Yes, I would like to apply for the earlier date of 12/31/77. I could not read the attachment. It just came out as dashed lines. Oh well, it is what it is.

Thank you,
Carl

Subject: Clarification on Location of Place of Use in Claim 97-8904

Good morning Mr. Long,

The Department of Water Resources has received and begun processing your claim (Case number 69576, Identification number 97-8904). We would like to reach out to you for some clarification on the parcel demarcated as the place of use in your claim to confirm that the correct one is selected. Currently, your claim has parcel RP57N05W167400A as its place of use, which our aerial imagery indicates has nothing built on it. The neighboring parcel to the north (RP57N05W167350A, see attached screenshot, circled red) is also under your ownership, contains the point of diversion listed in your claim, and appears to have 2 structures built on it, one of which we presume to be the single household that will utilize this water right. Furthermore, because the parcel data for RP57N05W167350A indicates that the house located there was built in 1977 (see attached screenshot, circled green) we believe you to be eligible for an earlier priority date (12/31/1977) than the date requested in your claim (04/01/2017). We would recommend requesting this as an earlier priority date will better protect you from curtailments due to water delivery calls should such an event occur. Let me know if you would like these changes made to your claim and I will email an amended claim for you to sign and send back.

Thank you for your assistance,

-Jacob Caraig
